THE NORTH CAROLINA STATE NORMAL AND INDUSTRIAL COLLEGE

IDEAS FOR WHICH THE COLLEGE STANDS

THE State Normal and Industrial College stands for a public school system that will educate all the people. It teaches its students, and urges them to teach others, the doctrine of universal education. The authorities of the Institution regard the College as a part of the public school system of the State, and believe that it has a duty to discharge, not only to those who study within its walls, but to that great body of people who will not enter this or any other school or college. The greatest amount of educational opportunity to the greatest number of people is its motto and its aim. Without reservation, members of its faculty stand for local taxation for public schools, and for every movement which tends to secure to the State effective teaching for every child, preparing him for productive labor and intelligent citizenship.

The Institution undertakes to emphasize in every legitimate way that any system of education which refuses to recognize the equal educational rights of women with those of men is unjust, unwise, and permanently hurtful. One-third of the population of North Carolina is composed of women and girls of the white race, and the opportunities given to this class of our population will determine North Carolina's destiny. The chief factors of any civilization are its homes and its primary schools. Homes and primary schools are made by women rather than by men. No State which will once educate its mothers need have any fear about future illiteracy.

IMPORTANT DIRECTIONS

1. The attention of the student is directed to the College calendar. *See page seven of this catalogue.*

2. When application is made for admission, the applicant should not fail to give her county.

3. Special attention is called to the article on *"Requirements for Admission." See pages 21 to 32.*

4. The expenses, with dates of advance quarterly payments are given on pages 100 to 102.

5. The rooms in the dormitories have been comfortably fitted up, and the beds have good springs and mattresses. Each student is expected to bring for her own use the following articles: One pillow and two pairs of pillowcases, two pairs of sheets, two pairs of blankets, two counterpanes, six towels and six table napkins; one spoon, knife, and glass for individual use in room. *Only single beds are used.*

Each student is expected to be provided with overshoes and an umbrella, plainly marked with her full name; also a coat, or raincoat, for protection during stormy weather.

6. Every applicant for admission to the College who has not already been successfully vaccinated within two years, should be vaccinated at least two weeks before leaving home. In any case, she must either send her certificate of vaccination by mail, or bring it with her when she enters the College.

7. Every student, upon arrival at the College, is required to purchase a gymnasium outfit, costing six dollars. These outfits may not be provided at home, but must be purchased under the direction of the Instructor in Physical Training.

8. If, after examining this catalogue carefully, further information is desired, address Julius I. Foust, President, Greensboro, N. C.

THE STATE NORMAL AND INDUSTRIAL COLLEGE

ESTABLISHMENT

Established by Act of the General Assembly of 1891, the North Carolina State Normal and Industrial College first opened its doors for the reception of students October 5, 1892. More than to any other one man, the Institution owes its existence to Charles Duncan McIver. He formulated the ideas which it embodies, and was chiefly instrumental in securing the passage of the Act establishing it. During the fifteen years of his presidency, he so laid its foundations and outlined its future growth that the College must ever remain a monument to his statesmanship. It was his idea that the State of North Carolina should provide for its young women an institution of higher learning, adequate for every need, and within the reach of all. Soundly progressive in spirit, it was to be helpful in aim and endeavor. Equality of opportunity and fitness for service were to be its watchwords—earnest living and high thinking its ideals. Only thus could it justify its existence, or merit the continued support of an intelligent people.

PURPOSE, ORGANIZATION, AND HISTORY

The chief mission of the College has been and will continue to be the preparation of teachers. At least two-thirds of all its enrolled students and nine-tenths of all its graduates render service in either the public

or private schools of North Carolina. Many of the courses, therefore, are designed particularly for teachers. For students who may not wish to teach, and who must yet look to their own efforts for a livelihood, instruction is offered in the commercial branches, drawing, industrial art, domestic science, and other subjects—the mastery of which will enable them to become self-supporting. The College realizes, however, that not all who seek an education do so with a desire to become teachers, or from motives of self-support. For that considerable body of women who seek the broad culture to be derived from a familiarity with the world's best thought and achievement, liberal courses in the arts, sciences, and music are offered—the Institution thus endeavoring to meet the needs of the women of North Carolina, and to give such education as will add to the efficiency of the average woman's work, whatever her position and field of labor.

The management of the College is vested in a Board of Directors, consisting of one member from each of the Congressional districts, the first Board being elected by the General Assembly of 1891. The State Superintendent of Public Instruction is, *ex officio,* an additional member of the Board, and its President.

The Act establishing the Institution required that it be located at some suitable place, where the citizens would furnish the necessary buildings, or money sufficient to erect them. The Board of Directors accepted the offer made by the City of Greensboro, which was thirty thousand dollars in money, voted by the town, and a beautiful ten-acre site, located in the corporate limits, and donated by Messrs. R. S. Pullen,

R. T. Gray, E. P. Wharton, and others. Since the original donation, the Directors have purchased about 116 acres of land.

In October, 1892, the College began its work, with two buildings inadequately equipped, an annual appropriation of ten thousand dollars for maintenance, a teaching force of fifteen, and a student enrollment of two hundred and twenty-three. The people, regardless of denominational or party affiliations, have stood loyally by their College, and each succeeding Legislature has dealt more and more liberally with it. Today the Institution has fifteen buildings; 106 lecture rooms, laboratories, and offices; dormitory accommodations for 575 boarders; a teaching and official force of 76; and, including the Training School, a total enrollment of 1390 students. The value of the plant is $685,000, and the annual State appropriation is $100,000.

ADMISSION OF STUDENTS

The Normal and Industrial College is a part of the public school system, and its special mission is to prepare people to work in and improve that system. As a State institution, it desires to be of the greatest possible service to the entire people of North Carolina. It would not, if it could, limit its patronage to a particular class or section. Every county has its proportionate number of appointments, and the advantages of the Institution are, to the extent of its capacity, open on similar terms to all. Its requirements for admission and its courses of study have been made equivalent to those of the colleges of best standing in North Carolina. Local conditions, however, have not been overlooked, and the work offered in the Freshman year is of such a nature that it may be profitably begun by any intelligent girl who has improved all her opportunities in the best public high schools of the State. For the benefit of those young women who find it impossible to secure proper preparation in all the subjects required for entrance, the Institution offers preparatory instruction in some of the units required for admission to the Freshman class.

No students are admitted, however, who have not completed the course in the home school.

REQUIREMENTS FOR ADMISSION

1. Applicants for admission to the College should be sixteen years old, and in good health.

2. They should send with their applications, *which they themselves must write, a statement from their last teacher, as to scholarship, conduct, and habits of study.*

3. The standard of admission to the College is the prescribed course of the State high schools of North Carolina. When these schools are thoroughly organized, their graduates should be able to offer fourteen units of work for college entrance. The Normal College, however, is much more concerned about the quality of the preparatory work than it is about the quantity. Until it finds, therefore, that its candidates for admission can offer more, it will admit to the Freshman class those students who can give evidence of having had thorough preparation in twelve and one-half units of high-school work. The term *unit* means the equivalent of five recitations a week for one year in one branch of study. Students are admitted to the Freshman class (1) by passing satisfactory examinations; or (2) on the presentation of a diploma from a recognized college; or (3) on the presentation of proper certificates from an accredited high school.

The admission subjects and their requirements are as follows:

1. Eleven and one-half required units, including two and one-half units in *Mathematics,* three in *English,* two in *History,* one in *Science,* and three in foreign languages—*Latin, French, or German.*

2. One elective unit from the following: *Latin,* or *French,* or *German*—subject to the restriction that not more than a total of three units in any one language will be accepted—or *Science,* or *History.*

The requirements in each of these subjects are as follows:

MATHEMATICS: 2½ units.

Algebra: Factors, common divisors and multiples, fractions, simple equations with applications to problems, involution and evolution, radicals and equations containing radicals, imaginaries, quadratic equations, ratio and proportion, arithmetical and geometrical progressions, binomial theorem for positive integral exponents.

Geometry: Plane Geometry, five books. In order that students may pursue successfully the work of the Freshman year, it is strongly recommended that their preparation in Algebra include frequent supplementary exercises taken from various text-books, and in Geometry constant practice with original demonstrations. During the year before entrance to College, there should be a review of both subjects.

One and one-half years with daily recitations is the shortest time in which satisfactory preparation can be made in Algebra, and one year with daily recitations is the minimum in Geometry.

HISTORY: 2 units. The requirements in History may be met by offering two of the following courses. The examinations will be based on the material included in the books suggested, or their equivalent.

1. American History. Hart's *Essentials of American History;* McLaughlin's *History of the American Nation.*

2. English History. Andrews, Walker, Cheyney, or Coman & Kendall's *History of England.*

.3 Ancient History (Greece and Rome). West's, Botsford's, Webster's Westermann's, or Robinson's *Outlines of European History, Part I.*

4. Medieval and Modern History. Robinson's *History of Western Europe;* Bourne's *Medieval and Modern History;* West's *Modern History.*

One elective unit may be offered from this group.

ENGLISH: 3 units. The requirement in English is that agreed upon by a joint committee of colleges and secondary schools, and now generally accepted by all colleges in the United States. Of this requirement, the following is a general definition:

A. *English Grammar, Composition, and Rhetoric.*

To test the candidate's command of clear and accurate English, she will be required to write one or more compositions, devoloping a theme through several paragraphs. The subjects will be drawn from the books prescribed for study and from the student's personal knowledge and experience.

To meet the requirements in Composition:

1. There should be practice in writing equivalent to weekly or at least fortnightly themes throughout the high school course. The subjects for themes should be drawn partly from the literature read and partly from the student's daily experience and observation. The candidate should be well grounded in the essentials of English Grammar, and accuracy in spelling, capitalization, and punctuation should be rigorously exacted. Proper effort should also be made to enlarge the student's vocabulary.

2. The theory of Rhetoric should be studied in connection with the work in composition. The pupil should study the structure of sentences, paragraphs, and whole compositions; should analyze and make outlines of essays with a view to understanding the orderly and progressive development of thought, and should be taught the principles of good writing as exemplified both in her own work and in the work of others.

B. *Reading and Practice.*

A certain number of books will be set for reading. The aim of this course is to foster in the student the habit of intelligent reading, and to develop a taste for good literature. She should read the books carefully, but her attention should not be so fixed upon details that she fails to appreciate the main purpose and charm of what she reads.

The candidate will be required to present evidence of a general knowledge of the subject-matter, and to answer simple questions on the lives of the authors. The form of examination will usually be the writing of a paragraph or two on each of several topics, to be chosen by the candidate from a considerable number set before her in the examination paper.

With a view to large freedom of choice, the books provided for reading are arranged in the following groups, from which at least ten units—not less than two from each group—are to be selected.

I. Shakespeare's *Merchant of Venice, Midsummer Night's Dream, As You Like It, Twelfth Night, Henry the Fifth, Julius Cæsar.*

II. Defoe's *Robinson Crusoe,* Part I; Goldsmith's *Vicar of Wakefield;* either Scott's *Ivanhoe* or Scott's *Quentin Durward;* Hawthorne's *House of the Seven Gables;* either Dickens' *David Copperfield,* or Dickens' *Tale of Two Cities;* Thackeray's *Henry Esmond;* Mrs. Gaskell's *Cranford;* George Eliot's *Silas Marner;* Stevenson's *Treasure Island.*

III. Bunyan's *Pilgrim's Progress,* Part I; *The Sir Roger de Coverley Papers* in the Spectator; Franklin's *Autobiography* (condensed); Irving's *Sketch Book;* Macaulay's *Essays on Lord Clive* and *Warren Hastings;* Thackeray's *English Humorists;* Parkman's *Oregon Trail;* either Thoreau's *Walden* or Huxley's *Autobiography* and selections from *Lay*

Sermons, including the addresses on *Improving Natural Knowledge, A Liberal Education,* and *A Piece of Chalk;* Stevenson's *Island Voyage* and *Travels with a Donkey.*

IV. Palgrave's *Golden Treasury* (First Series), Books II and III, with especial attention to Dryden, Collins, Gray, Cowper, and Burns; Gray's *Elegy in a Country Churchyard,* and Goldsmith's *Deserted Village;* Coleridge's *Ancient Mariner,* and Lowell's *Vision of Sir Launfal;* Scott's *Lady of the Lake;* Byron's *Childe Harold,* Canto IV, and *Prisoner of Chillon;* Palgrave's *Golden Treasury* (First Series), Book IV, with especial attention to Wordsworth, Keats, and Shelley; Poe's *Raven;* Longfellow's *Courtship of Miles Standish,* and Whittier's *Snow-Bound;* Macaulay's *Lays of Ancient Rome,* and Arnold's *Sohrab and Rustum;* Tennyson's *Princess* or *Gareth and Lynette, Lancelot and Elaine,* and *The Passing of Arthur;* Browning's *Cavalier Tunes, The Lost Leader, How We Brought the Good News from Ghent to Aix, Home Thoughts from Abroad, Home Thoughts from the Sea, Incident of the French Camp, Hervé Riel, Pheidippides, My Last Duchess, Up at a Villa—Down in the City.*

C. *Study and Practice.*

This part of the examination presupposes the thorough study of each of the works named below. The examination will be upon subject-matter, form, and structure.

The books set for this part of the examination are:

Shakespeare's *Macbeth;* Milton's *Comus, L'Allegro* and *Il Penseroso,* or Tennyson's *Gareth and Lynette, Lancelot and Elaine,* and *The Passing of Arthur;* Burke's *Speech on Conciliation with America, or* Washington's *Farewell Address* and Webster's *First Bunker Hill Oration;* Macaulay's *Life of Johnson,* or Carlyle's *Essay on Burns.*

In connection with the two foregoing lists, the student should be trained in reading aloud, and encouraged to commit to memory some of the more notable

passages, both in verse and prose. As an aid to literary appreciation, she is further advised to acquaint herself with the more important factors in the lives of the authors read, and with their place in literary history.

The head of the English Department will be glad to recommend suitable text-books for this preparatory work, and to furnish needful suggestions looking towards the accomplishment of better results.

NOTE—No candidate will be accepted in English whose work is notably defective in spelling, punctuation, grammar, or division into paragraphs.

SCIENCE: 1 or 2 units. One unit of Science is required of all candidates for admission to the College. An additional unit will be accepted. See "Electives and Equivalents" below.

PHYSICAL GEOGRAPHY: 1 unit. The text-book recommended is Tarr's *New Physical Geography,* and from it the entrance examination will be made out. This may be expected to cover such important topics as the Land, its physiographic features and the processes which have brought them about; the Ocean, its composition, currents, effects on climate, and its shore lines with their influence on civilization; the Atmosphere, its movements, weather, and climate; the distribution of animals and plants brought about by differences of temperature and moisture; and last, the Physiography of the United States, and its effects on the industries and pursuits of the nation.

SCIENCE: ELECTIVES AND EQUIVALENTS. The outline of the requirement in Physical Geography will serve to indicate the character and amount of work that must be offered in Science. An equivalent in Agri-

culture, Biology, Botany, Chemistry, or Physics will be accepted. From this group the candidate may also offer one elective unit. Accurate notes of all laboratory work should be kept, and the notebooks presented by the candidate at the time of her entrance.

FOREIGN LANGUAGES: 3 units. The entrance requirements in foreign languages may be met as follows: Three units of Latin, or two units of Latin and one unit of Modern Language (French or German), or three units of Modern Language. Candidates presenting three units in one language are given freedom of choice in the languages later to be pursued. Those presenting two languages are required to continue one of them. In addition to the three required units in foreign languages, the candidate may offer one additional unit as an elective. This is subject to the restriction that not more than three units will be accepted in one language.

LATIN: 2 or 3 units. Two units of Latin must be offered for admission to the Freshman class in the Bachelor of Arts course, and by all candidates who elect Latin in any of the other courses. Candidates must have had competent instruction in the subject, involving the Roman pronunciation, careful attention to quantity and accent, systematic drill in grammar, with daily exercises in prose composition, and the reading of some elementary reader, together with four books of Cæsar's Gallic War, or their equivalent. Bennett's *Latin Composition,* through chapter 27, will serve to indicate the amount of composition required.

Students who wish credit for three units of Latin must present, in addition to the foregoing, six of Cicero's orations—the four against Catiline, the Manil-

ian Law, and Archias. Bennett's *Latin Composition* should be completed. In reading and in composition, equivalents satisfactory to the head of the Latin Department will be accepted.

FRENCH: 1, 2, or 3 units.

I. One unit. This amount includes: (1) Careful drill in pronunciation; (2) rudiments of grammar, with particular attention to simple idiomatic constructions, conjugation of the regular and the more common irregular verbs, and the simpler pronominal forms; (3) constant practice in the translation from English into French; (4) writing French from dictation; (5) the reading of from 100 to 175 pages of graduated texts, with frequent practice in reproducing in French easy variations of the text read.

II. Two units. In addition to the work of the first unit, this demands (1) a continued and thorough study of grammar, including the subjunctive and infinitive uses, more detailed work in pronominal constructions and word order, with constant application in the construction of sentences; (2) the reading of from three hundred to four hundred pages of easy modern prose, in the form of stories, plays, or historical or biographical sketches; (3) continued practice in translating into French variations of the texts read; (4) frequent summaries, sometimes oral and sometimes written, of portions of the text already read.

III. Three units. This work comprises in addition to I and II the reading of from four hundred to six hundred pages of standard French of increasing difficulty, a portion of which should be in dramatic form; the study of a grammar of modern complete-

ness; more advanced work in translation into French, and free composition; frequent practice in giving French paraphrases, abstracts, or reproductions, either oral or written.

GERMAN: 1, 2, or 3 units.

I. One unit. The student should know the rudiments of grammar, and possess an ability to read easy prose at sight, and to translate simple English sentences into German. She should have read 150 pages of easy prose. Emphasis is laid on pronunciation.

II. Two units. In addition to the foregoing, this requires continued work in advanced grammar and composition. The candidate should have read three hundred or more pages of easy German, and should be able to translate simple prose and poetry at sight.

III. Three units.

The student should be able to translate at sight ordinary modern and classical German prose into good English. This may be acquired by reading at least five hundred pages of advanced prose and verse selected from such works as the following: Freytag, Doktor Luther or Aus dem Staat Friedrichs des Grossen; Heine, Reisebilder; Schiller, Wilhelm Tell; Hoffman, Meister Martin, der Küffner. Bacon's *German Composition*, or its equivalent, must have been completed.

ADMISSION REQUIREMENTS—BACHELOR OF MUSIC DEGREE

The general requirements are the same as for all regular degree courses in the College. See pages 21 to 30.

Additional Requirements:

The candidate must possess a knowledge of the rudiments of music, scales, intervals, and staff notation, including the terms and expression marks in common use.

IN PIANO: Combined with the foregoing theory requirements—a practical knowledge of the various kinds of touch; the ability to play all major and minor scales in similar and contrary motion in sixteenth notes (at metronome speed of quarter note=84); the major and minor arpeggios slowly and clearly; the ability to play with due regard to tempo, fingering, phrasing, and expression, the studies by Heller, Op. 46; Czerny, Op. 299, Book I; Mozart, Sonata in C, No. 1; Haydn Sonata in C; Grieg, Album Leaf in A, Op. 28; Bach, Solfeggietto, Dussek Rondo in D; Moszkowski, Etude in G. The ability to play at sight, hymn tunes, chorals, and such pieces as Reinecke, Op. 77; Scharwenka, Op. 62; other easy pieces by Gurlitt, and First Lessons in Bach, Volume I, edited by Carroll, Angener edition.

A candidate may offer equivalents for studies and pieces mentioned, on the approval of the department.

A preparatory course, the equivalent of the above, will take about four years for the ordinary grammar grade or high-school pupil to complete.

The following outline is suggested as a suitable course to prepare for the entrance to the Freshman class:

FIRST YEAR: The study of notation, rhythm, sight-reading, ear-training, a knowledge of the keyboard, muscular control, and finger technic, each taught separately at first.

Simple studies and pieces selected from the following:

Chittenden, *Five Note Melodies;* M Watson, *First Visits to Tuneland;* Crosby Adams, *Primary Tone Pictures;* Florence Maxim, *The Music Ladder;* Gurlitt, *Melody and Technic,* Book I.

SECOND YEAR: *Studies*—Duvernoy, *Op. 176;* Kohler, *Op. 242;* Gurlitt, *Op. 187. Pieces*—Easy pieces by Lynes, Dutton, Krogmann, Dennee, Gurlitt, and others.

THIRD YEAR: *Studies*—Lœschhorn. *Op. 66,* Book I; *Brauer, Op. 15; First Lessons in Bach,* Carroll. *Pieces*—Sonatinas by Clementi and Kuhlau. Pieces by Reincke, Schytte, Tschaikowsky, Heller, and others.

FOURTH YEAR: *Studies*—Duvernoy, *Op. 120;* Heller, *Op. 46;* E. B. Perry, *Wrist Studies;* Czerny, *Op. 299,* Books I and II. *Pieces*—Mozart, *Sonata in C;* Haydn, *Sonata in C.* Pieces by Jensen, von Wilm, Schumann, Grieg, and others.

IN ORGAN: Those seeking admission to the organ department must have completed the work of the Freshman year in piano. The organ course covers three years.

IN VIOLIN: Candidates to enter the violin course must add to the regular College entrance requirements a knowledge of the general musical theory, and an ability to play correctly selections from the Wichtl *School Book I,* and from Kayser, *Thirty-Six Studies, Book I,* or other works of same standard and difficulty.

IN VOICE: Applicants for the regular course in voice must add to the regular College entrance requirements the ability to play simple piano accompaniments readily.

TIME AND PLACE OF EXAMINATIONS

All candidates for admission into the College who have entrance examinations to stand, must assemble in the College chapel at 9.00 a. m., *Wednesday, September 15,* for preliminary registration. They will there be assigned to rooms for examination.

Former students who have no examinations to stand, and new students who are to enter on certificate, must present themselves for registration on *Saturday morning, September 18.*

ADMISSION TO ADVANCED STANDING

Candidates for admission to an advanced class are subject to examinations on all studies required for admission to the Freshman class, and on all studies pursued by the class up to the point at which they enter. Such candidates should present themselves for examination on the same days and at the same hours with candidates for admission into the Freshman class. (See College Calendar, page 7.)

No student will be permitted to pass by examination all language work required in any course, but must take at least one year in residence.

COURSES OF STUDY

COURSES LEADING TO DEGREES

The College offers five general courses of study, leading to the following degrees: Bachelor of Pedagogy, Bachelor of Arts, Bachelor of Science, Bachelor of Science in Home Economics, and Bachelor of Music. All students receiving free tuition appointments must take one of these regular degree courses, or the brief course for teachers outlined on page 40.

REGULATIONS

No student may register for more than sixteen periods a week, except under such regulations as are adopted by the Faculty Council. All students are required to take at least twelve periods of work.

The work in a lower class must be completed before the work in the same subject can be taken in a higher class. In case of conflict between work in a lower class in any department and the work in a higher class in another department, the student must drop the work of the higher class.

Satisfactory examinations on all back work must be passed at the beginning of the session. Seniors receiving a failure or more than one condition at mid-year examinations are no longer to be considered members of the class, and will be required to discontinue some of their work.

No first-year language may count as Senior work.

Petitions for change of course must be submitted during the last two weeks of April, or during the first week of the fall term. Final choice of subjects for students' programs must be made by the second Wednesday of the Fall term.

An entrance condition, no matter how slight, prevents a student from being classed higher than a Freshman. Any deficiency in Freshman work prevents a student from being classed as a Junior.

COURSE I—BACHELOR OF PEDAGOGY

This course is designed particularly for those who intend to teach. It differs from the other courses chiefly in permitting a more liberal choice of subjects relating to public school work, and in allotting double time to the Pedagogy of the Senior year. Freedom of choice is allowed in the elective subjects of the Senior year, provided that the necessary preparatory work has been done by the proper election in previous years.

Numerals indicate number of recitations one hour in length in each subject weekly.

COURSE IV—BACHELOR OF MUSIC

This course is designed for those who intend to pursue a musical education. Special attention is given in the Junior and Senior years to the preparation for teaching either Applied Music or Public School Music, or both.

For admission to the "Music Course," a student must present the regular college entrance requirements and, in addition, the equivalent of four years' preparatory work in music. An outline of these additional requirements is given in this catalogue, pages 30 to 32.

The attention of the student is called to the fact that there are extra charges in the "Music Course." For tuition expenses in this department, see page 102.

COURSE V—BACHELOR OF SCIENCE IN HOME ECONOMICS

This course is designed particularly for those who wish a liberal and at the same time thorough course in the arts and sciences which are fundamental in the management of the home. The College is provided with all the necessary furnishings and apparatus to give thorough instruction in the subjects of house management and sanitation, art and design, food preparation, dietetics, textiles, and house decoration.

SPECIAL AND ELECTIVE COURSES

All students, even though they may not be applicants for a degree, are advised to elect one of the regular courses. They furnish an excellent foundation of liberal education, and at the same time allow a reasonable latitude for specialization in single branches. When it seems advisable, however, properly qualified students will be permitted to register for one of the following special courses:

I. *Brief Course for Teachers.*

Students registering for this course will, with the exception of foreign languages, which are optional, take seven or more periods of their work in regular order as laid down in the Bachelor of Pedagogy course, page 35. Additional work, consideration being given to the candidate's preferences and to her previous studies, will then be assigned by the head of the Department of Education.

Graduates holding the diploma of a recognized college will be permitted to register for this course without examination. All other students must, with the exception of foreign languages, satisfy the College admission requirements given on pages 21 to 30, and present a "first grade" teacher's certificate, with evidence of one year's experience in teaching.

There is no tuition charge for this course.

II. *Course for Nurses.*

The State Normal and Industrial College is glad to co-operate with all organizations having as their object the higher education and better professional equipment of the women of North Carolina. The course here outlined represents the voluntary choice

of the North Carolina State Nurses' Association, and is recommended to candidates for the nursing profession as an excellent preparation for later special and professional study.

COURSE:—Houshold Biology, Household Chemistry, Dietetics, English, Hygiene, Laundry and Textiles, Physiology, and Physical Training.

Before registering for this course, the applicant must have fulfilled the College entrance requirements, and, in the case of continuous subjects, must have completed the lower work in those subjects.

III. *Business Courses.*

An outline of the courses offered by the Commercial Department, with the entrance requirements and expenses, will be found on pages 90 to 94.

IV. *Elective Course for Tuition-Paying Students.*

In exceptional cases, tuition-paying students who are not candidates for a degree, may elect such studies as they are prepared to pursue with profit, subject to the provisions that the total number of periods must not exceed sixteen, and that six or more of these periods must be taken in regular order from one of the five degree courses outlined on pages 35 to 39. In general, such students must be able to enter the Sophomore class.

SUMMER SESSION COURSES

In order to extend its advantages to women whose occupations prevent their attendance upon other sessions, the College maintains a Summer Session, beginning about June 1, and continuing eight weeks. Many of the courses offered are of collegiate grade, and

properly completed may be counted towards a degree. Generally speaking, the courses are presented as units equivalent to one-fourth or one-half of a year's work. Proper sequence is provided, thereby enabling the student to continue her course in the ensuing fall, spring, or summer sessions. In brief, the Summer Session constitutes one of the regular terms of the college year, and places the full resources of the Institution—faculty, buildings, dormitories, libraries, and laboratories—at the service of those who may wish to devote part of their summer to college work.

In the selection and arrangement of its Summer Courses, the College has had in view the needs of the following classes: (1) Teachers wishing special work in the Principles and Methods of Teaching (Primary, Grammar, and High School), with opportunities for practice and observation work under experienced supervisors. (2) Teachers desiring advanced or collegiate courses in philosophy, science, psychology, and history of education. (3) Teachers of special subjects, such as Agriculture, Domestic Science, Vocal Music, Drawing, and Manual Arts. (4) High School teachers who desire advanced or extra work along the line of their specialties, with free use of good departmental libraries and well equipped laboratories. (5) College students who wish to earn advanced credit or to remove conditions. (6) Students preparing for college. (7) Mothers, wives, and home-makers who feel the need of practical help in such subjects as foods and food values, cookery, kitchen conveniences, home nursing, sanitation, and household decoration.

A special Bulletin descriptive of its Summer Session work is issued by the College. Copies of this Bulletin may be had upon application.

DEPARTMENTS AND COURSES OF INSTRUCTION

DEPARTMENT OF EDUCATION

CHARLES H. ELLIOTT
ROBERT A. MERRITT
JAMES H. BEACH

The aim of the Department of Education is to prepare teachers for the elementary and high schools of North Carolina. To this end, comprehensive college courses in elementary and secondary education, psychology, school management, and practice teaching are offered.

The department is housed in a commodious building, which contains the classrooms of the department and a practice school with an enrollment of three hundred and fifty children. The training of teachers is in charge of the head of the department and twelve trained supervisors. In addition to the regular departmental work, special courses in observation and school management are offered to meet the needs of young teachers. This field of work is supplemented with a number of courses in methods for the various grades, and with observation work offered in the Summer Session.

COURSES IN EDUCATION AND PSYCHOLOGY

Course 1. Educational Psychology. Three hours a week—first and second terms.

These courses are designed to cover in classroom and laboratory the field of general psychology, and its

application to education. In addition, such special topics as the psychology of interest, of fatigue, practice, individual differences, and sex differences receive consideration.

In the course will be included a general survey of the psychology and treatment of exceptional children, the measurement of mental retardation, and methods of classification, with their application to the instruction of ungraded classes.

Lectures, recitations, required readings and laboratory work.

Required of all Juniors.

Course 2. Principles of Education. Three hours a week—first term.

An effort is made in this course to study the educational process as a whole, and to develop those principles of education that may be derived from the related fields of biology, psychology, and sociology. The following are some of the topics which receive detailed treatment: The various conceptions of education which have been held in the past, and their significance; heredity; recapitulation; adjustment; individual and group development; the learning process; formal discipline; the education of the emotions; the relation of the school to society; the function of the school; the kinds of education demanded by modern life; educational values.

Lectures, recitations, required readings and written reports.

Required of all Seniors the first half-year.

Course 3. Secondary Education. Three hours a week—second term.

The course treats in detail the principles and practice of secondary education. It includes a survey of secondary education, the history of secondary education, secondary education in Europe, types of high schools in the United States, organization and administration of American high schools, the important issues now before the secondary schools of this country, problems of teaching in the secondary school. Detailed consideration of the secondary school subjects is given, and as much of the field is covered as time will permit. The following will be examined in 1915-16: Latin and modern languages, the vernacular, mathematics, the physical sciences, the biological sciences, general science, history, civics and economics, the practical arts, vocational education.

Observation of the high-school practice classes in the Training School is required. In addition, trips to near-by high schools are arranged. The results of such observations are presented in written reports by the class, and discussions held.

Lectures, recitations, required readings, and written reports.

Required of all Seniors who expect to teach in high schools.

Course 4. Theory and Practice of Elementary Education. Three hours a week—second term.

This course is planned to meet the needs of those students who will be elementary teachers in the cities of North Carolina. It includes a survey of the origin

and development of the elementary school of the United States, and the large problems in the organization of the city elementary school. Other important topics which are considered are: The social relationships of the elementary school, the relation of the elementary school to the secondary school, practical education in the elementary school, differentiation, the continuation school. The curriculum of the elementary school receives detailed treatment. The various subjects and the best methods of teaching them are discussed and illustrated in the observation classes in the Training School. The work is related very closely to the student's practice work, which is taken parallel to this course, and the applications to the conditions in this State are made an important part of the course. The measurement of results in education, and the question of the proper standardization of the elementary school, will receive consideration.

Required of all Seniors who expect to teach in the city elementary schools.

Course 5. Practice Teaching and School Management. Three hours a week—first and second terms.

In this course, the student is required to spend five hours a week in actual teaching for one year. Lesson plans are prepared and submitted to the supervising teacher for criticism before the exercise is given to the pupils. The teaching is directed by the head of the department and a corps of twelve supervisors. The supervision is so conducted as to make the practice teacher independent in her class management as early in the course as possible. Particular attention is directed to the subject matter, its organization, and

the most approved methods of presenting it. In the course of the year, the student is expected to have had practical work in all of the subjects taught in the grade to which she has been assigned.

In the conferences, such important problems of class management as the following are considered: the mechanics of classroom management, questioning, waste in instruction, forms of classroom exercises, the use of instincts in education, tests and measurements of the regular class work.

Lectures, written plans, and practical work.

Required of all Seniors who are under pledge to teach.

Course 6. Special Course in Elementary Education.

This course is planned to meet the needs of those students who are not candidates for a degree, but wish training in elementary education. In general, the topics of Course 4 are covered, and larger provision for observation is made. The work is organized to deal with the problems of the small town and rural schools.

Students with experience in teaching may elect practice teaching in connection with this course on the approval of the head of the department.

Certificate credit.

The following courses are offered in the Summer Session:

I. *Psychology.* Six hours a week.

This is a general course in educational psychology. The following are the leading topics considered: the

psychological basis of mental life; association; habit; individual differences; instinct; the emotions. The course is equivalent to one-half of Junior psychology.

Credit: First half of Junior psychology.

II. *Psychology.* Three hours a week.

This is a more elementary course in psychology than Course I. It is designed for students who have had no special training in psychology or pedagogy. An effort is made to develop in a more elementary way those principles of psychology which find their application in class teaching and management.

Credit: Certificate.

III. *Educational Psychology.* Six hours a week.

This course is a more advanced course than Course I, and after 1915 Course I must be taken as a prerequisite to it. During the present Summer Session, students qualified may take this course without fulfilling this condition. Some of the topics of Course I will be considered, and in addition such topics as practice, fatigue, and the measurement of educational products. The course is designed to be equivalent to half of the regular course in Junior psychology.

Credit: Second half of Junior psychology.

IV. *Principles of Teaching and Classroom Management.* Four hours a week.

The aim of this course is to develop those principles of teaching which are based upon psychology and elementary sociology. Opportunities to apply the prin-

ciples developed will be offered through the observation of grades in the practice school. On the side of school management, attention will be given to the general organization of the elementary school and classroom management.

Credit: Certificate.

V. *Methods of Teaching in the Primary Grades.* Four hours a week.

This course is planned for beginning teachers. The methods of teaching arithmetic, reading, language, writing, drawing, nature study, and gardening will be presented, and all of the work will be illustrated through model lessons in the various subjects.

Credit: Certificate.

VI. *Primary Methods for Experienced Teachers.* Four hours a week.

This course has been planned to suit the needs of teachers who have had some experience, and will deal with the curriculum and methods of teaching for Grades I, II, and III. The general plan of the work suggested in Course V will be followed, but the work of Grade III will receive emphasis in this course, and in general the course is of a more advanced character.

Credit: Certificate.

VII. *Methods of Teaching in the Grammar Grades.* Four hours a week.

This course will deal with the curriculum and the most approved methods to be followed in Grades IV and V. For the Summer Session of 1915, the subjects

which will be presented are: reading, geography, history, and arithmetic. The work will be illustrated by means of model lessons.

Credit: Certificate.

VIII. *Methods of Teaching in the Grammar Grades.* Four hours a week.

This course deals with the course of study, and with the most approved methods of teaching the subjects of Grades VI and VII. The subjects which will receive special emphasis in the Summer Session of 1915 are: English, history, arithmetic, and geography. In addition, there will be discussed the work of science, manual training, gardening, and household arts. Attention will be given to various plans of organization of the grammar grades, such as departmental teaching, the junior high school, and elective courses.

Credit: Certificate.

IX. *Secondary Education.* Six hours a week.

This course is planned to give the student two distinct lines of work: (a) A course in secondary education in which the following are some of the topics treated: the scope of secondary education; European secondary schools; the organization and administration of secondary education in the United States; the reorganization of secondary education in America; theory of teaching typical secondary school subjects.

(b) Parallel with this there will be opportunity in 1915 to study intensively the theory and practice of teaching Latin, algebra, English, modern languages,

and history, and to observe classes in high-school subjects. One aim of the course is to develop typical courses of study for the high schools of North Carolina.

Credit: Certificate.

X. *Classroom Observation.*

A number of these courses will be offered in connections with Courses V to IX inclusive. The work will be conducted by a corps of experienced supervising teachers. Experienced teachers may arrange to take special work in this field by consulting the head of the department.

Credit for this work is given as part of Courses V to IX.

DFPARTMENT OF ENGLISH

WILLIAM C. SMITH
MARTHA E. WINFIELD
MARY K. DANIEL
ELEANORE ELLIOTT
ZETA MAYHEW
DORA ROBINSON
RUBY BRYAN

For admission requirements in English, see pages 24 to 26.

I. *Rhetoric and Composition*—Three hours a week—first term. Study of prose selections, descriptive and narrative. Theme writing and other exercises. Individual criticism and interviews. Required of Freshmen.

II. *Rhetoric and Composition*—Three hours a week—second term. Continuation of Course I.

Specimens of exposition. Essays of Carlyle and Stevenson. Required of Freshmen.

III. *Rhetoric and Advanced Composition*—Three hours a week—first term. Study of prose selections of considerable length. Book reviews and literary criticism. Theme writings, outlines, and other written exercises. Personal interviews. Required of Sophomores.

IV. *Advanced Composition*—Three hours a week—spring term. Theme writing continued as in Course III. Study of modern English prose, particularly the essays of Newman and Arnold. Required of Sophomores.

V. *Shakespeare*—Two hours a week—fall term. A careful study of five or six of Shakespeare's plays, with a more rapid reading of others, selected with reference to the development of his mind and art, and designed to illustrate his general characteristics as a dramatist and poet. For Juniors.

VI. *English Poetry from 1780 to 1832*—Two hours a week—spring term. Study of the poetry of Burns, Coleridge, Byron, Wordsworth, Shelley, and Keats. Special attention given to the rise and development of the Romantic movement. Short papers and one long essay required. For Juniors.

VII. *The Principles of Poetry*—One hour a week—fall and spring terms. Study of the nature and elements of poetry; poetic diction; meter, rhythm, rime, and stanza forms. Illustrative studies from Tennyson's poetry. Lectures, and assigned readings from Arnold, Corson, Dowden, Hutton, and Stedman. Pre-

requisites, Courses III and IV. For Juniors. Elective with Course VIII.

VIII. *Composition—Description, Narration*—One hour a week—fall and spring terms. In this course the descriptive study is mainly incidental to the narrative. The work, based on the reading of a number of novels and short stories, consists in: (1) a series of papers on the theory of narrative writing as discussed in a text and illustrated in the novels and stories read, and (2) ten or more themes of some length, most of which are short stories. Prerequisites, Courses I, II, III, and IV. For Juniors. Elective with Course VII.

IX. *British Poets*—Two hours a week—first term. Poetry of Arnold and Mrs. Browning. Selections from Clough, Morris, Swinburne, and Rossetti. Prerequisites, Courses V and VI. For Seniors.

X. *Poetry of Browning*—Two hours a week—second term. Continuation of Course VII. For Seniors.

XI. *High-School English*—One hour a week—both terms. A course for teachers of English in high schools. It will include mainly such literature as is read in high schools, with a survey of such supplementary material in history, biography, and criticism as a high-school teacher should know. It will also include some writing with special reference to the choice of subject matter, the gathering and arrangement of material, and effective criticism. The course as a whole will be conducted for the benefit of teachers in the high school. For Seniors.

XII. *Composition and Rhetoric—Teachers' Course.* Four hours a week. Summer Session.

The work will include the study, by means of text-books and lectures, of the principles of rhetoric as they apply to the choice of words and the structure of sentences, paragraphs, and whole compositions. Frequent short themes, several essays, and occasional exercises in class will be written. Regular conferences with the instructor will constitute a part of the course.

XIII. *Literature—Teacher's Course.* High School Classics. Four hours a week. Summer Session.

A study of at least ten of the English classics, including all of those on the required study list for College entrance.

In addition, there will be lectures on the teaching of English, including among others such topics as the following: Aims of English teaching: what to emphasize, form and content; the teaching of poetry; the essay problem—how related to the study of the classics; the teachers' library.

XIV. *Literature—Teachers' Course.*—Four hours a week. Summer Session.

A general survey of English poetry from Chaucer to Tennyson. The lives of the authors, the age in which they lived, and the particular contribution of each author to literature will be considered, but the chief purpose of the course will be to familiarize the student with the actual stream of poetry through a study of representative selections.

XV. *Essentials of English Grammar*—Four hours a week—Summer Session.

An outline study of English grammar, with special reference to the structure of the sentence. The course is intended for public school teachers, and includes a review of inflection, word analysis, clausal and phrasal relations, and oral and written analysis.

XVI. *Literature—College Entrance English*—Four hours a week—Summer Session.

This course is intended to meet the needs of students preparing to enter college. The books studied will be those included in the College entrance requirements.

DEPARTMENT OF EXPRESSION

MARY SETTLE SHARPE

There is an ever-increasing need for young women who can speak easily and forcefully in public, and who can adequately interpret the writings of the best authors. This is especially desirable in those who are to teach the youth of our State.

Rightly studied, the art of interpretation, or expression, is a key to the higher, spiritual meanings of all literature, and it touches life itself most vitally. The spoken word has ever been the word of power. Thought, however grand or beautiful, if unexpressed, is vain, but transmitted through the media of trained voices and responsive bodies its possibilities are illimitable.

I. *Training of Body and Voice*—Two hours a week.—Elective with vocal music to Freshmen in the Bachelor of Pedagogy Course.

Body; poise and bearing. Voice, articulation. Reading, with special reference to correct use of the voice, right habits of breathing, clear and direct giving of the thought. Recitations.

II. *Training of Body and Voice*—One hour a week.—Required of Juniors in the Bachelor of Arts and Bachelor of Science Courses.

Voice culture; rhythmic exercises for freedom, ease, and grace of body; gesture; expressional analysis, and recitation of oratorical, narrative, lyric, and dramatic forms of literature. The work is along the lines of Course I, but is much more advanced.

DEPARTMENT OF HISTORY AND ECONOMICS

W. C. JACKSON
HARRIET W. ELLIOTT

For entrance requirements, see pages 23 and 24.

I. *Medieval and Modern Europe*—Three hours a week for the year. The aim of this course is to give an outline of the history of Europe from the later Roman empire to the beginning of the French Revolution. Emphasis is placed on Feudalism, the Church, the Renaissance and Reformation.

Text, readings, reports, and occasional lectures.

Elective with Mathematics in the Sophomore year of the A. B., B. S., and B. P. Courses.

II. *Modern European History*—Three hours a week for the year. This is an introductory course to the current national and international problems of the European nations, and begins with the French Revolu-

tion. The chief matters considered will be the French Revolution; the Restoration in France and the Revolution, 1830; the Industrial Revolution; the Revolution, 1848; the development of Italian and German unity; the Third French Republic; the political and social reforms in England; the Russian empire; the present economic and social problems in Europe; and the territorial expansion of the nineteenth century of the various European powers.

Text, outside reading, and the preparation of maps and reports. Junior elective in A. B., B. S., and B. P. Courses.

III. *American History*—Three hours a week for the year. This course will include a brief survey of our colonial history, followed by a more detailed study of later epochs. Among the topics given especial attention will be the making of the constitution, the beginning of political parties, early diplomatic relations, rise of sectionalism, slavery, Civil War, and a summary of succeeding events.

Text, collateral reading, reports and lectures. Senior elective in A. B., B. S., and B. P. Courses.

IV. *Introduction to Economics*—Three hours a week for the year. A study of the fundamental laws and theory of economics; and an historical, comparative, and critical study of practical economic problems.

Text, readings, reports, and occasional lectures. Senior elective in A. B., B. S., and B. P. Courses; required in Junior B. S. H. E. Course.

V. *English History*—Five hours a week. Summer Session.

This course is a review of English History, and is offered for students who wish to meet the College entrance requirement in history. Some previous study of the subject is necessary, as this is a review course.

Text-books, collateral reading, preparation of maps and reports.

VI. *North Carolina History*—Five hours a week. Summer Session.

The aim of the course is to give a general outline of the history of North Carolina, from its earliest settlement to the opening of the Revolution. Ashe's *History of North Carolina* and the *Colonial Records* form the basis of the work, but other collateral reading is required.

Text-books, collateral reading, preparation of maps and reports.

VII. *Teachers' Course in American History*—Five hours a week. Summer Session.

This course is intended primarily for those who teach American history in the high school. It will include a review of the principal epochs of American history.

The last two weeks of the course will be devoted to the whole problem of history in the high school—course of study, methods, collateral readings, etc.

Text-books, collateral reading, preparation of maps and reports.

DEPARTMENT OF MATHEMATICS

GERTRUDE W. MENDENHALL
CORA STRONG
ELIZABETH POTWINE
NETTIE LEETE PARKER
BERTHA STANBURY

I. *Required Course for Freshmen*—Four hours a week for the year.

(*a*) Solid and Spherical Geometry. Three hours, first term.

(*b*) Higher Algebra. One hour, first term; two hours, second term.

This course will open with a rapid review of the principal topics in high-school algebra (factoring, radicals, theory of exponents, quadratics, simultaneous quadratics). The review will be followed by the study of such topics as mathematical induction, permutations and combinations, complex numbers, logarithms, determinants, and the theory of equations.

(*c*) Plane Trigonometry. Two hours, second term.

The angular analysis, including transformations, trigonometric equations, and inverse functions, is fully treated, as well as the solution of right and oblique triangles and the practical use of the tables.

II. *Analytical Geometry and Conic Sections*—Open to students who have completed Course I. Three hours a week for the year.

III. *Differential and Integral Calculus*—Open to students who have completed Course II. Three hours a week for the year.

IV. *Modern Analytical Geometry and Curve Tracing*—Three hours for the year; or, *Theory of Equations and History of Mathematics:* Three hours

for the year. Open to students who have completed Course II.

V. (*a*) *Arithmetic*—Three hours a week for first term.

(*b*) *High School Mathematics*—A study of critical parts of high-school Algebra and Plane Geometry. Three hours a week for second term.

Open to Juniors and Seniors, and Special Pedagogy students who have fulfilled the entrance requirements.

DEPARTMENT OF BIOLOGY AND PHYSIOGRAPHY

EUGENE W. GUDGER
MARY ROBINSON

I. *Household Biology*—One recitation and two laboratory hours a week, fall term.—Freshman year. Required in Bachelor of Science and Home Economics Courses; elective in Bachelor of Pedagogy Course.

This course is especially designed to prepare students for work in Domestic Science; hence it deals chiefly with yeasts, bacteria, and molds, those micro-organisms which play such a large part in the daily life of the housekeeper. These plants are studied structurally under the microscope, while, by experiments on various foods, their activities are made clear to the student. The beginnings of the study of Sanitation are made, and some attention is paid to the relation of micro-organisms to agriculture. The course includes the study of Ameba and of a green Alga, in order to give some idea of the relations of animals and of plants, both green and colorless.

This work is based mainly on Conn's *Bacteria, Yeasts, and Molds in the Home,* and Ritchie's *Primer of Sanitation.*

II. *Botany*—Two hours a week, spring term.—Freshman year. This course is a continuation of the work of the first term. It is really a nature study course in Botany, being designed to teach the student to see how plants grow and behave, and to understand their life and work. The plant in its environment is first studied, with special reference to its struggle for existence. Then it is considered as a whole, analyzed in its parts, and the function of each part studied. Considerable attention is paid to the agricultural side of the subject. The object in view is not to have the student learn the names and peculiarities of any set number of plants or flowers, but to teach her something of the lives, activities, and inter-relationships of the common plants. Especially is it intended to prepare her to teach nature study work in plants. To carry out the purpose of this course, weekly walks are taken in the park adjoining the campus, and at intervals longer excursions are made into the surrounding country. Bailey's *Elementary Botany* is used.

III. *General Biology*—Two recitations and three hours of laboratory work a week throughout the year. Required in Junior year of Science and Home Economics Courses; elective in Junior year of Pedagogy Course. This course is designed as a part of the liberal education of every student and is intended to prepare students for work in Physiology and Hygiene. It must be preceded by Biology I and II.

The work of the fall term is largely given to a study of the activities of micro-organisms in relation to sanitation, agriculture, and the industrial arts.

To this end a large amount of parallel reading is required, and by field trips the work of bacteria and molds in producing plant diseases and in mineralizing dead organic matter is made clear. Later, Chara, Hydra, and the Crawfish are studied to show the essential structures of the invertebrates and the inter-relationships of plants and animals. The spring term is given to the study of the anatomy, physiology, and histology of the frog, as leading up to the study of human anatomy and physiology.

The object of this course is not so much to teach the minute structure of plants and animals as it is to inculcate the great principles and generalizations of Biology, to show the dependence on each other of all living things, and to prepare the student to make use of these things in her life and her teaching. No single text-book being available, a number are used.

IV. *Comparative Anatomy of Vertebrates*—Two lectures or quizzes and three hours' laboratory work a week throughout the year. Optional in Senior year of Pedagogy and Science Courses. In this course, which must be preceded by Biology I, II, and III, students dissect and study the chief systems of the Dogfish, Catfish, Turtle, Pigeon, and Rabbit, in order to work out the comparative structures of the Vertebrates and the principles of animal morphology. In addition to the dissections noted, there will be given a course of lectures and seminary talks based on Abbott's *Elementary Principles of General Biology.*

V. *Physiography*—Three hours a week throughout the Sophomore year. Elective in B. P. and B. S. Courses. This subject is offered in these courses in order to give students some adequate preparation for the teaching of Elementary and Physical Geography.

DEPARTMENT OF CHEMISTRY

MARY M. PETTY

I. *General Chemistry*—Three hours a week. Instruction in this department is given by lectures illustrated by experiments, general discussion, and laboratory work. Each student will perform a given number of experiments in order to become acquainted with the nature and behavior of the various substances treated in the lectures. The latter part of the year will be devoted to simple methods of analysis.

II. *Analytical Chemistry*—Three hours a week. This course is offered to students who wish to prepare themselves for special work in Chemistry and allied subjects. Prerequisites: The science work of the Sophomore and Junior years.

The students will be expected to become familiar with the most common elements, and to be able to detect them either free or in compounds. They will also have some instruction in the quantitative analysis of compounds.

III. *Household Chemistry*—Two lectures and three laboratory periods a week. Summer Session. Prerequisite: One year of General Chemistry.

This course is designed to give work in the chemistry of the materials most intimately connected with daily life. The following subjects will be considered.

Air: Its constituents, impurities, ventilation.

Fuels: Kinds—gaseous, liquid, and solid. Heat and Ventilation. Economic value of various kinds of fuels.

Lighting: Methods—Proper conditions for effective lighting. Comparison of different methods.

Water: Composition and properties, both physical and chemical. Importance as food and in digestion. Impurities and methods for purifying. Water analysis and interpretation of results.

Food: Food principles. Chemical changes due to cooking food. Varieties of foods and their chemical composition. Study of special processes, such as bread making, fermentation, soap making, preserving food and fruits. Milk and dairy products, and milk testing. Beverages. Chemistry of digestion.

DEPARTMENT OF PHYSICS

WILLIAM C. A. HAMMEL

I. Three lectures and three hours of laboratory work counting three hours a week.

Air, Liquids, Heat, Dynamics, first half-year.

Electricity, Magnetism, Light and Sound, second half-year. Required in Bachelor of Pedagogy, Bachelor of Science, and Home Economics Courses; elective in Bachelor of Arts Course.

II. Three lectures and three hours of laboratory work, counting three hours a week. Required in Junior year of Bachelor of Science Course, elective in Senior year of Bachelor of Pedagogy Course.

III. *Laboratory Course*—Six hours of laboratory work, counting three hours a week. In this course the student is trained in more advanced work and in methods of research. Towards the end of the course each student undertakes a brief original investigation upon a topic assigned by the instructor. The require-

ments for admission to this course are Physics I and Physics II. Elective in Senior year of Bachelor of Science Course.

IV. *Elementary Physics, Teachers' Course*—Five periods a week.—Summer Session.

Air, Liquids, Heat.

Recognizing the fact that most of the Physics taught in the rural schools is taught without apparatus, this course will consist in illustrating important laws by using simple, inexpensive apparatus, constructed in the laboratory by each student.

This apparatus will become the property of the student constructing it, thus forming a nucleus for a good working laboratory. There will be a charge of one dollar to cover cost of material.

DEPARTMENT OF MANUAL ARTS

WILLIAM C. A. HAMMEL,
JULIA M. RAINES

This department was organized to meet the growing demand in the South for teachers of the manual arts. The course is planned to give to teachers of all grades, in rural as well as city schools, an opportunity to prepare themselves as instructors in the subject.

The course has been arranged with a view to the use of inexpensive, and, so far as possible, native materials; so that the manual arts in some form may be practicable in all schools, and need not be excluded from any on account of additional cost.

I. Paper folding, paper cutting, cardboard work, Venetian iron work, basketry, knife work, and simple

problems in bench work. This work is for primary and grammar grades, and is adapted for use in city and rural schools. Two periods a week—one hour credit. For Juniors in Bachelor of Pedagogy Course.

II. Theory and practice of teaching manual arts in the grades. Applied design and craft work for the high schools. The craft work includes weaving, bookbinding and book repairing, simple problems in jewelry work and in brass and copper. Two periods a week—one hour credit. For Seniors in Bachelor of Pedagogy Course.

III. *Architecture and Sanitation*—History and styles of architecture. Types of dwellings. House planning, designing, and remodeling. Home building with relation to site, specific needs, means, etc. Constructive features, building materials, color schemes, cost. Sanitary condition of house and site, with relation to soil, water supply, plumbing, sewerage, heating, lighting, ventilation, disposal of refuse. Four periods a week—two hours' credit. For Sophomores in Home Economics Course.

IV. *Household Decoration and Furnishing*—Treatment of woodwork, floors, and walls, with relation to style of architecture, use of room, exposure, lighting, etc.; their care and preservation. Floor coverings, hangings, furnishings; their cost, suitability, design, coloring, and harmony. Kitchen arrangements and equipment, household utensils, labor and time-saving devices. Four periods a week—two hours' credit. For Seniors in Home Economics Course.

V. *Teachers' Course*—Summer Session. This course is designed to meet the recognized need of hand work in the primary grades, and consists of paper

folding, paper cutting, cardboard construction, and knife work in wood, together with the proper correlation of the handling of crayons and watercolors. Four periods a week.

DEPARTMENT OF LATIN

VIOLA BODDIE
JULIA DAMERON
CORA MCCLELLAN

For admission requirements in Latin, see page 28.

Students offering two units in Latin will take Course A.

A. *Cicero*—Four hours a week, entire year.

Cicero's Orations, about six. Talks on Roman History. Composition.

I. *History*—Four hours a week, first term. Nepos and Livy: Composition. For Freshmen.

II. *History*—Four hours a week, second term. Tacitus, Sallust: Composition. For Freshmen.

III. *Epic Poetry*—Three hours a week, first term. Vergil: Selections from earlier forms of the Roman epic; lectures on topics related to epic poetry. For Sophomores.

IV. *Roman Lyric Poetry*—Three hours a week, second term. Horace's Odes used as the basis of study. For Sophomores.

V. *Comedy*—Three hours a week, first term. Terence. For Juniors.

VI. *Comedy*—Three hours a week, second term. Plautus. For Juniors.

VII. *Satire*—Three hours a week, first term. Horace, Persius, Petronius, and Juvenal. For Seniors.

VIII. *Cicero*—Three hours a week, second term. De Senectute and De Amicitia. Lectures on the teaching of Latin; criticism of Latin text-books. For Seniors.

DEPARTMENT OF FRENCH

HINDA TEAGUE HILL
EMMA MAY BRYAN
VIVIAN HILL
DOROTHY PHILBRICK

For admission requirements in French, see page 29.

Students who do not offer any French for entrance will, if they are to pursue the subject in College, take Course I. Students offering one, two, or three units of French will, if they continue the subject, take Courses II, III, or IV, respectively.

I. *Grammar and Reading*—Four hours a week. Chardenal's *Complete French Course;* Snow and Lebon's *Easy French;* Mairet's *La Tâche du petit Pierre;* composition based on text read, dictation, conversation. In this course special emphasis is laid on pronunciation, simple idiomatic constructions, the regular conjugations, and the more common irregular verbs.

II. *Advanced Grammar and Reading*—Three hours a week.—Fraser and Squair, *French Grammar;* François, *Introductory French Composition;* Hugo,

Cosette; Labiche and Martin, *Le Voyage de M. Perrichon;* Halévy, *L'Abbé Constantin;* Daudet, *Neuf contes choisis;* Mérimée, *Colomba;* composition and conversation based on books read.

III. *Seventeenth Century Literature*—Three hours a week. Corneille, *Le Cid;* Racine, *Athalie;* Molière *Le Bourgeois Gentilhomme;* La Fontaine, *Fables;* François, *Advanced French Prose Composition;* History of Seventeenth Century Literature.

IV. *Modern Literature*—Three hours a week.—Balzac, *Le Curé de Tours;* Hugo, *Hernani,* and *Les Misérables;* Lamartine, *Jeanne d'Arc;* Loti, *Pêcheur d'Islande;* Sandeau, *Mlle. de la Seiglière;* Sand, *La Mare au Diable;* Bacon, *Une Semaine à Paris;* History of Nineteenth Century Literature.

One period a week in this course is devoted to French conversation and the criticism of themes written in French by the class. Summaries and reviews of books read are required.

V. *Speaking and Writing French*—Three hours a week.—Super, *Readings from French History;* Laurie, *Mémoires d'un Collegien;* Souvestre, *Un Philosophe sous les toits;* Chapuzet and Daniels, *Molière en Récits;* Scribe, *Le Verre d'Eau.* This course is conducted wholly in French, and consists of oral and written reproduction of the texts read. Extensive collateral reading and frequent themes are required.

VI. *The Teaching of French in the High School*—Two periods a week.—Summer Session.

This course will consist of discussions of the various methods of teaching French, with the advantages and disadvantages of each; the proper presenta-

tion of the more important topics in Grammar, requisites of a satisfactory text-book; desirable books of reference.

Attention will be paid, so far as possible, to the special problems of the individual teacher.

In each course, collateral reading in French is required in addition to the texts specified above. The amount varies according to the course. The books named in the foregoing courses may be varied slightly from year to year.

DEPARTMENT OF GERMAN

CHRISTINE REINCKEN
SOPHIE C. LINGG

For admission requirements in German, see page 30.

Students who do not offer any German for entrance will, if they are to pursue the subject in College, take Course I. Students offering one, two, or three units of German will, if they continue the subject, take Courses II, III, or IV, respectively.

I. *Grammar*—Bierwirth.

Reading: Deutsche Heimat, Schrakamp. *Der Letzte,* Wildenbruch.

Four hours a week.

II. *Grammar Review*—Bacon, *German Composition.*

Literature: Fouqué, *Undine;* Raabe, *Else von der Tanne;* Schiller, *Die Jungfrau von Orleans;* Lessing, *Minna von Barnhelm.*

Three hours a week.

III. *Composition*—Osthaus and Bierman.

Literature: Kleist, *Michael Kohlhaas;* Heine, *Die Harzreise;* Goethe, *Hermann und Dorothea;* Freitag, *Aus dem Staate Friedrichs des Grossen.*

Three hours a week.

IV. *Composition,* continued—Osthaus.

Literature: Scheffel, *Ekkehard;* Collitz, *Selections from Classical German Literature from the Reformation to the Beginning of the Nineteenth Century;* Goethe, *Faust.*

Three hours a week.

VI. *Elementary German—Grammar and Reading.* Eight periods a week. Summer Session.

In addition to Grammar and Reading, this course will include systematic drill in pronunciation and in the idiomatic use of the language.

Texts: Bierwirth, *Beginning German;* Wenkebach, *Glück Auf!*

Credit: One-half of first year German. If there shall be sufficient demand for it, a full year's work will be offered.

VII. *Composition and Literature*—Eight periods a week.—Summer Session.

This course, like the preceding, includes practice in pronunciation and in the idiomatic use of the language.

Text-book: Bacon, *German Composition.*

Credit: First half of second-year German.

VIII. *Teacher's Course in High-School German*—Two periods a week.—Summer Session.

Review of Elements of German Grammar. Practice in reading aloud, and conversation based on subject matter read. Discussion of methods by which interest may be aroused. Outside reading from modern writers. Special problems of the individual teacher will be discussed.

Credit: Certificate.

DEPARTMENT OF PHYSIOLOGY AND HYGIENE

ANNA M. GOVÉ
PATTIE MCADAMS

I. *Hygiene*—A brief course of lectures in practical care of health. Required of all students in their entrance year.

II. *Physiology and Hygiene*—Three hours a week. For Seniors. Freshman Biology and General Chemistry are prerequisites. The course aims to give a practical knowledge of the cells, tissues, and organs of the body; of the general structure and functions; and to apply this knowledge to the consideration of diet and other practical hygiene.

The work is illustrated by simple laboratory exercises, use of microscope, and dissection of lower animals.

DEPARTMENT OF PHYSICAL TRAINING

LAURA MCALLESTER
RHODA BAXTER

The Department of Physical Training has among its chief objects:

The promotion of bodily health; development of grace, ease of movement, precision, alertness, agility, and endurance; correction of faulty postures; and relaxation from mental work.

The work is divided into five departments.

I. *Swedish Drill*—The exercises are systematic and progressive, and embrace both floor drills and apparatus work.

Required of every student in College.

II. *Theory of Gymnastics*—Course for Teachers. One period a week throughout the year for Juniors and other students who have had sufficient practical gymnastic work.

It includes the study of the Ling or Swedish system of gymnastics for the school room; games for school room and playground; and folk games and dances.

III. *Supervised Teaching of Gymnastics*—Open to all Seniors who have practice-teaching in the Training School.

IV. *Esthetic Gymnastics*—One period a week. Open to Seniors.

This course embraces folk dancing and work in rhythmical movements for the whole body.

V. *Out-of-Door Sports*—Open to every student in College. All sports, including field hockey, basketball, tennis, and other games, are carefully supervised.

Medical and special corrective gymnastics will be given to any suffering from bodily ailments or faulty postures.

Every student in the College, unless excused by the resident physician, will be required to take the regular work of the department.

All new students will be required to purchase a gymnasium suit and shoes after their arrival at College. The cost of these is six dollars.

DEPARTMENT OF MUSIC

WADE R. BROWN
CHARLES J. BROCKMANN
G. SCOTT-HUNTER
KATHRYN M. SEVERSON
GERTRUDE SOUSLEY
ETHEL GARDNER
MYRA ALDERMAN ALBRIGHT
ETHEL LEWIS HARRIS
ALLIENE RICHARD MINOR

The College offers regular courses leading to the degree of Bachelor of Music in Piano, Organ, Violin, and Voice, and furnishes a special course in Public School Music Methods. Applied music may be taken by students of any of the regular college courses, provided the music added is within the limit of seventeen hours allowed as the maximum.

The charges for lessons in Piano, Organ, Violin, and Voice are given under the head of expenses, page 102 of the catalogue.

An outline of the four years' course leading to the Bachelor of Music degree is given on page 38.

The requirements for admission to the Bachelor of Music Course, with outline of a suggested preparatory course, are given on pages 30 to 32.

COURSES IN MUSICAL THEORY

Course I. Solfeggio—Required of Freshmen, Bachelor of Music Course. Three hours a week. A course in sight-reading, rhythmic and melodic dictation, with attention given to ear training, tone production, and enunciation. Class drill in staff notation and in sight-singing, with emphasis laid upon tonal relations as a practical basis for the study of harmony.

Course II. Harmony—Required of Sophomores, Bachelor of Music Course. Two hours a week. The study of intervals, triads and their inversions; simple part writing from given basses and sopranos; chords of the seventh, harmonizing simple melodies and figured basses, simple modulations. Triads, chords of the seventh, various cadences and simpler modulations played at the piano.

Course III. Advanced Harmony—Required of Juniors, Bachelor of Music Course. Two hours a week. Advanced study of secondary sevenths; chromatically altered chords, modulation in general, suspension, retardation, appoggiatura, anticipation, passing tone, and pedal point.

Progressions involved in the written work transposed into various keys at the piano.

Course IV. History of Music—Required of Sophomores, Bachelor of Music Course. Two hours a

week. General History of Music, with special attention to the period since the year 1600, and with emphasis in the second term on the great masters.

Course V. History of Music—Great composers and their works. Required of Juniors, Bachelor of Music Course. Two hours a week. An illustrated lecture course making a biographical and critical study of the significance to music of a few of the most famous composers.

Course VI. Counterpoint—Required of Seniors, Bachelor of Music Course. Two hours a week. Counterpoint in two, three, and four parts. Harmonization and supplying additional voices to chorals and other melodies used as Canti Fermi.

Course VII. Analysis—Required of Seniors, Bachelor of Music Course. Two hours a week. The elements of Musical Form. The Primary, Song, Rondo, Aria, Sonata, and Fugue forms analytically considered.

Course VIII. Public School Music—Elective with Expression in Freshman year of Bachelor of Pedagogy Course. Three hours a week. A course presenting the subject-matter which the regular grade teacher must teach in the elementary schools.

It includes the study of notation, scales, signatures, rhythm, sight-reading, ear-training, dictation, both rhythmic and melodic, tone production, musical interpretation, graded melodies for individual sight-singing, the singing of songs, and two, three, and four part-songs.

Course IX. Public School Music Methods—Open to Seniors of the Bachelor of Music Course. Three

hours a week. A course designed for those who wish to fit themselves to be supervisors of music in the public schools. The work includes a study of rote songs and their application to school work; the elements of music as presented in the grades; study of the child voice; the supervisor's problems, and how to meet them; study and interpretation of school songs; outlining of material; music in the high school; the preparation of lesson plans. Practice teaching before the class and in the grades of the Training School, under the direction of the head of the Department of Education and of the supervising teachers.

Course X. Normal Piano Methods—Open to Juniors, in Piano, Bachelor of Music Course. Two hours a week. Classification of fundamental teaching material and best methods of presentation to the child mind. Notation, sight-reading, ear-training, rhythm, technic, melody writing, and musical games.

Observation of children's classes.

Course XI. Normal Piano Teaching—Open to Seniors, Bachelor of Music Course. Two hours a week. Practice of the principles learned in the previous course, by the teaching of children, under the supervision and direction of the Department of Education.

COURSES IN APPLIED MUSIC

By "Applied Music" is meant the practical study of Piano, Organ, Violin, or Voice, in private individual lessons.

PIANO

The course of study in this department includes:

I. Technical exercises which are intended to give control of the muscles of fingers, hands, and arms, making them responsive to the commands of the will.

II. Etudes by the best teachers and composers, which are designed to give further development to the executive powers, to bring about a finer relation between the physical and intellectual faculties, and to form a connecting link between purely technical work and the higher forms of musical expression.

III. Compositions by the best composers of the classic, romantic, and modern schools.

VOICE CULTURE

True cultivation of the voice consists in the development of pure tone, and its easy natural use and control in singing. Correct use of breath, intonation, attack, legato, accent, phrasing, and enunciation are the leading features of technical drill. At the same time, a higher ideal than the perfection of mere mechanical skill is sought, namely, a musicianly style of singing and all that is implied in the broad term "interpretation," together with a thorough appreciation of the best work of the best masters, both old and new.

ORGAN

This course provides for a thorough training in all that pertains to a mastery of the organ for church music, voluntaries, the art of improvisation, systematic drill in technic, registration, and the art of accompaniment. The course of study is especially arranged to give a knowledge of the different schools of organ music as represented by the best composers.

VIOLIN

The instruction is based upon the most thorough methods of teaching, including a graded list of etudes, solo pieces, and concertos by the best writers.

GRADUATION REQUIREMENTS IN MUSIC

Upon the satisfactory completion of the regular four years' theoretical and literary course, together with the four-years' course in applied music, the candidate for the Bachelor of Music degree must satisfactorily perform programs conforming to the following schedule:

For Piano Students—A concerto or chamber-musical work of advanced diffculty. One of the Beethoven sonatas of the middle period. Selections from the more important works of Schumann, Chopin, Grieg, or other standard composers of the romantic and modern schools.

For Vocal Students—An operatic aria. An aria from a standard oratorio. A group of songs of Brahms, Schubert, Schumann, Jensen, or Franz. A group of modern songs.

For Organ Students—One of the great preludes and fugues of Bach. A sonata of Mendelssohn, Guilmant, or Rhineberger. Selections from the works of Thiele, Widor, Merkel, and other standard composers.

For Violin Students—A standard sonata for piano and violin. A concerto of advanced difficulty. Selections from the more important works of Vieuxtemps, Wieniawski, and other standard writers.

ENSEMBLE PLAYING

Ensemble classes meet for the study of concerted music. Four and eight-hand piano music is studied; thus pupils become acquainted with masterpieces of orchestral literature often inaccessible to music students, and acquire habits of self-control and steadiness

of rhythm in sight-reading and accompanying. Sophomores, Juniors, and Seniors in the Piano Course will devote one hour each week to ensemble playing.

SOLO CLASS

As a preparation for recital and concert playing, a weekly Solo Class is held. All students of the Sophomore, Junior, and Senior classes in the Piano Course are required to attend. The standard compositions studied by different members of the class are analyzed by the director of music and afterwards performed by the student. In this way all students acquire a wide and intimate acquaintance with standard pianoforte literature.

STUDENTS' RECITALS

Students' Recitals are given fortnightly, at which time works studied in the classroom are performed before the students of the music department. All music students are required to attend these recitals, and to take part in them when requested to do so. These semi-public appearances are of great assistance in enabling the student to acquire that ease and self-possession so essential to a successful public performance.

ARTIST AND FACULTY RECITALS

Not less important than classroom instruction is the opportunity of hearing good music rendered by artists of superior ability. To afford students this opportunity, a regular series of recitals is given each year, the best artists available being secured.

Recitals and concerts are given frequently by members of the music faculty during the school year.

COLLEGE CHOIR

The College Choir, numbering 130 voices, sings at special services and on festival occasions. The works of the best composers of sacred and secular music are studied.

The conditions of membership are: A voice of fair effectiveness, a correct ear, some knowledge of musical notation, and regularity in attendance. Open to all students of the College who can meet the conditions of membership.

ORCHESTRA

The College Orchestra is open to all students who play any orchestral instrument reasonably well. Weekly rehearsals are held, and the orchestra is heard, on various occasions, throughout the year.

MUSIC SUPPLIES

Music students buy their own sheet music and music books. They are expected to deposit with the College Registrar, at the beginning of the session, a sum of money sufficient to pay for sheet music supplies used. A ticket will be issued for each deposit, and unused coupons will be redeemed in full at the end of the session. The amount thus deposited will be from three to five dollars.

DEPARTMENT OF DRAWING

MELVILLE VINCENT FORT

I. *Object drawing, simple designing and illustrating*—Mediums used: pencil and colored crayons. Once a month a famous painting is studied.

Two hours a week.

II. *Object drawing for light and shade*—Designing and illustrating are continued in this year, with pencil, colored crayon, and watercolors as mediums. The lives of some of the great artists are studied.

Three hours a week.

III. *For Teachers*—Four periods a week.—Summer Session.

This course is planned especially for public school teachers who have had no previous instruction in drawing. Practice will be devoted to work of the same character as that given to children in the schools. Special attention will be paid to methods of class presentation. This course should enable the teacher to use intelligently the text-book adopted by the State.

Mediums used: chalk, crayola, pencils, brush and ink, and watercolor.

IV. *For Teachers*—Four Periods a week.—Summer Session.

A course for those who may desire advanced work along the lines of art in our public schools. The work is designed to meet the needs of supervisors, special teachers of drawing, and regular grade teachers who have had some previous instruction in the subject.

An effort will be made to give the teachers taking this course such a group of principles and methods as will enable them to do their work intelligently and happily. Public school problems as found in North Carolina will be carefully considered, and a course of study will be worked out to meet the requirements. Opportunity will be offered for observation of lessons taught in the Training School.

DEPARTMENT OF DOMESTIC SCIENCE

MINNIE L. JAMISON
JANE CAPE

I. *Domestic Science*—Three hours a week. Elective in Sophomore year of Bachelor of Pedagogy Course.

Composition and nutritive value of foods; fundamental principles and processes of cookery; practical work in plain and advanced cookery; study of special foods; meats; milk and its products; cereals and their products; breads, vegetables, sugars, beverages; special diet; marketing; planning, cooking, and serving meals; cost of living; methods of preserving foods, as canning, salting, and preserving.

II. *Food Course*—Two hours a week—second term. A course designed to develop reason and judgment in the selection and preparation of foods; a study of the nature and use of food; its composition as affected by heat, cold, fermentation, and digestion.

Prerequisite: Chemistry I and II, and Household Biology.

For Sophomores in Home Economics Course.

III. *Food Course*—Two hours a week—first term. A study of economic problems of food supply; purchase and manufacture of foods; methods of preservation, historic and modern, in the home and in the factory; study of pure food laws; devices in the preparation of food from the standpoint of efficiency, cost, and saving of labor; efficiency of utensils tested according to composition and value, with various fuels and sources of heat.

Prerequisite: Food Course I.

For Juniors in Home Economics Course.

IV. *Dietetics and Household Management*—Two hours a week. Dietary standards; balanced rations; the fuel value of food; metabolism of foodstuff; food requirement as affected by age, sex, and occupation; construction of dietaries and service of meals; dietetic treatment of diseases, and principles of home nursing; organization of the household; division of the income, care of the house.

Prerequisites: Chemistry I and II, Food Course II, Physics, and Physiology.

For Seniors in Home Economics Course.

V. *Teachers' Course*—Six periods a week—Summer Session.

Food—Composition and nutritive value of foods; fundamental principles and processes of cookery; practical work in cookery; study of special foods; meats; milk and its products; cereals and their products; breads; vegetables, sugars, beverages; methods of preserving foods.

The study of dust and dust plants in their relation to the home. Friendly bacteria:—as scavengers; in butter-making, in cheese-making, vinegar. Harmful bacteria:—causing fermentation of foods, putrefaction, decay. Disease germs:—methods of prevention, disinfectants, sterilization, Pasteurization, sunshine and fresh air. Molds:—favorable and unfavorable conditions of growth. Yeasts:—used in bread making, best conditions for growth.

VI. *Housekeepers' Course*—Six periods a week—Summer Session.

Demonstration in batters, breads, creamed dishes, cream soups, souffles, vegetables.

Meat Cookery—Demonstrations in cuts of meats, methods of preparing cheap meats, expensive cuts, left-over meats, meat substitutes; vegetable soups. Desserts. Trays for the sick.

Demonstration in saving time and fuel by the use of steamer and fireless cooker. Paper bag cookery. Plans for building a fireless cooker.

THE HOME-TRAINING COTTAGE

In addition to the laboratory work in foods, the College has furnished a small cottage for the purpose of further training the students to meet the problems of the home.

In the Home-Training Cottage, students are given a limited amount of money each week with which to meet the expenses of the home. With this amount, all foods, fuel, lights, and other necessary running expenses must be met. Menus and household accounts are kept, to form the habit of looking after details, to teach the value of money, and to train the student to plan and buy simple, wholesome, well-balanced foods that meet the needs of the body.

In addition to the general care and management of the entire house, the care of the table linen, bed linen, beds, bathroom, and refrigerator is placed upon the students.

DOMESTIC ART DEPARTMENT

ALMA LONG

I. *Elementary Sewing*—Four hours a week for one-half year. Practice in hand and machine work. Principles of garment drafting and construction.

Also a short course in other forms of needlework, such as knitting, netting, crocheting, and embroidery. Required in the Home Economics Course, Sophomore year.

II. *Dressmaking*—Four hours a week for one-half year. This course is a continuation of Course I. Simple dresses, using commercial patterns, are made. Required in the Home Economics Course, Junior year.

III. *Elementary Sewing*—Three hours a week for entire year. Practice in hand and machine work applied to useful articles. Garment drafting and construction. Wash dresses. Elective in Pedagogy Course, Sophomore year.

IV. *Textiles*—Two hours a week for entire year. A study of fabrics in their historic and economic significance. Lectures, collateral reading, laboratory work and excursions. Required in the Home Economics Course, Senior year.

V. *Teaching Domestic Art*—Two hours a week for one-half year. A synopsis of the subject matter of Domestic Art as applicable to schools of various types. Plans for daily work and practice in class management. Required in Home Economics Course, Senior year.

Materials for the work in Courses I and III will cost about five dollars; for Course II, ten dollars and up, according to the student's choice of material. Articles made are the property of the student, subject to the wish of the department in regard to exhibition.

VI. *Teachers' Course*—Eight hours a week. Summer Session.

This course is intended for those who wish to teach sewing.

The problems will be in plain sewing, in simpler decorative stitches, and in garment-making. Inexpensive materials will be used, and only the simplest equipment will be necessary.

In addition to the laboratory work, time will be given for the discussion of plans for teaching sewing in the schools.

DEPARTMENT OF RURAL ECONOMICS

ERNEST ELWELL BALCOMB

I. *Rural Economics*—Rural Outdoor Industries. The work in this course will include the elements of agriculture, dairying, poultry raising, school and home gardening, horticulture, planning and planting home grounds. An effort will be made to teach, in a vital way, those phases of dairying that are essential to those who have charge of the milk and butter for the family. They should realize the danger resulting from the unsanitary handling of these important food products. The College dairy herd, together with the new barn and silo, offer opportunities for such first-hand information as a teacher in the rural school or an intelligent woman in the home should have.

Practical experience in raising farm poultry is gained by the operation of the small poultry plant at the College.

The College campus gives a splendid opportunity to become familiar with the native trees of the State.

II. *Study of Rural Life*—Three hours a week.

More and more the public is demanding that the school shall be a source of uplift for a community in its economic, social, and religious relations—that it shall assist in educating the whole people. Especially is it felt that the rural school should be a source of community uplift, and that the rural teacher, if she is to make her school of the greatest possible service, must know the people of her district intimately, and must be a leader in assisting them to solve their problems.

A teacher who appreciates her real mission will do something to improve the health of the community; awaken civic pride; relieve the physical drudgery and intellectual and social barrenness which is the lot of so many farmers' wives and daughters, and give to the farm family some of the enthusiasms of life. She will hold community meetings, educational rally days; be interested in co-operative societies for buying and selling; take a part in the organization of women's clubs and betterment associations; organize a school and community library; and take an interest in farm sports and athletics.

The Study of Rural Life is intended to train teachers to make a definite, systematic study of rural conditions, with the causes, consequences, and remedies; and to give them training which will enable them to be leaders in organizing clubs and societies, and to co-operate with this College and other agencies working for the improvement of Rural Life.

Students will be prepared to present the elements of agriculture in the elementary schools. Practice for this work is secured in the Training School.

The work of the course will include the study of text-books; reports on references to bulletins, etc.; investigations of economic and social conditions of rural communities; a study of the work of the institutions and societies of State and Nation working for the improvement of rural conditions; actual practice in organizing and conducting rural literary societies, betterment associations, boys' and girls' contest clubs; planning exhibits and decorations for school and county fairs.

III. *Rural Home Life*—Two hours a week.

A course similar to the foregoing, but emphasizing more particularly the problems of the home rather than those of the school and the community. For Seniors in Home Economics Course.

IV. *Elementary Agriculture, Teachers' Course*—Five periods a week.—Summer Session.

A course intended to give such knowledge and training as will enable those who take it to teach the elements of agriculture in the public schools, and to co-operate in organizing and conducting boys' and girls' clubs and contests for growing garden and field crops.

The work will include the study of text-books; reports on references; experiments in the laboratory; practice in gardening; observations in field, orchard, garden, and dairies; making collections; excursions to the Country Life Schools of Guilford County, and to some of the largest greenhouses and nurseries in the South.

COMMERCIAL DEPARTMENT

E. J. FORNEY
CLARA BOOTH BYRD

SHORTHAND

The original Isaac Pitman System of Shorthand is taught. It is the aim of the course to make practical shorthand writers—amanuenses and reporters. The inductive method of teaching prevails. The course is well graded, and the student is led, step by step, through easy and natural stages, to *see,* to *think,* and to *act for herself.*

The work of the department will be planned as far as possible to meet the needs of students. The course at first embraces not only a study of principles, but the reading and writing in shorthand of a wide range of English classics. As the student advances, in order to acquaint her with the forces and machinery of the business world, actual business letters bearing upon various subjects are dictated, reproduced on the typewriter, and copied in the letter book. Where it is deemed necessary, sentence structure and composition in the English Department of the College will be required.

As a majority of our students will ultimately engage in amanuensis work, this feature is made the leading purpose of the course; but reporting and the work pertaining thereto are not neglected, and when a student demonstrates that she can receive the higher work in shorthand to advantage, such dictation is given as will insure power, strength, and general information. Technical instruction in the use of medical and legal terms is also given.

SUGGESTED COURSES

Group I. Shorthand, Typewriting, Bookkeeping—This is the ideal course to take, if the previous training of the student will permit it. All accredited students and those who pass the College entrance examinations in English will be admitted to this course.

Group II. Shorthand, Typewriting, English, and Arithmetic—This course is recommended to those students who are classified below the Freshman class. As soon as sufficient scholarship in English is acquired to admit to the Freshman class, Group I is recommended.

Group III—Many students, in order to strengthen their general scholarship, return to the College for a second year's work. To such we recommend Shorthand, Typewriting, English, and some other subject. Music has become very attractive to many in this course.

REPORTING

A course in verbatim note-taking is offered. If a student demonstrates ability to do higher work in shorthand, actual speeches, addresses, sermons, court testimony, etc., are taken. In the first stages of reporting effort, an expert note-taker from the department accompanies the student, and takes a check note of her work. This coaching is continued until the student can rely upon her own notes.

This course is open to shorthand writers of any system, with a speed of not less than 120 words a minute, provided the applicant has a thorough knowledge of the principles of the system written (the department cannot undertake to teach the elementary

principles of any system except the Isaac Pitman), and has sufficient education to put into practice the expert work offered.

CERTIFICATES

The diligent student can, in from five to eight months, acquire a speed of 80 to 120 words a minute, which is sufficient to do good office work, and certificates will be given to students who can write from dictation correctly in shorthand from new matter at these rates. Students must pass an examination in Arithmetic and preparatory English before this certificate will be given.

Students will be admitted to this department at any time during the college year not later than March 1.

Business men who may be needing stenographers will, upon application, be put in correspondence with efficient help.

SYLLABUS OF WORK IN SHORTHAND

Session of 34 Weeks, 170 Days

(The books are taken up in the order named)

Inductive Lessons	Ch. 1 to 35	To develop reading power
Æsop's Fables	48 pages	To fix small words
Easy Readings	32 pages	To extend word-power
Phonetic Reader	21 pages	To increase vocabulary
Business Cor. 2	60 letters	Read and copied
Business Cor. 1	60 letters	Read and copied
Inductive Lessons and Select Readings	Ch. 36 to 54 / 1 and 2	Study of principles
Pitman's Text-book	Shorthand only	Study of principles
Vicar of Wakefield	280 pages	Read only
Universal Dic. Course	15 businesses	Dictated to students
Self-Culture (Blackie)	90 pages	To increase reading power
Key to Reporting Ex.	48 pages	Study of contractions
Gleanings 1 and 2	64 pages	Reporting style
Selections No. 3	45 pages	Reporting style
High Speed in Sh.	32 pages	Dictated to students
Inductive Lessons	54 Chapters	Review of principles

Universal Dic. Course	10 businesses	Dictated to students
10 Reporters' Readers	20 lectures	Sight reading; own notes
Pitman's Jour. (Bath)	1 copy daily	Shorthand and editorial
Sel. from Am. Authors		Read and copied

In addition to the above, beginning with the reading of Self-Culture, and running through the course to the end, dictation of fifteen hundred letters collected by the department, legal papers, specifications, etc., is a constant feature of the work.

SHORTHAND—HOME STUDY

There are many young men and women who would probably like to take advantage of a course of systematic work at home. To all such the Commercial Department will, upon request, outline a course of home work. All exercises sent to the College will be criticised and corrected, the only requirement being that the postage both ways be paid. This course of home work is constructed to produce *results;* therefore, it will take time and energy. In order to make the course as strong as possible, the complete outline includes the use of a number of books, the cost of which the student must bear. But in order to give students an opportunity to test their power before expending money for books, the department has issued a small pamphlet containing ten easy, well-graded lessons, which will be forwarded to anyone upon application.

TYPEWRITING

The Underwood typewriters are the machines most used, though a few other standard makes are kept for practice. Twenty-three instruments are owned by the department. Skill in the use of the machines is not the only design of the instruction. Special attention is paid to accuracy, neatness, vocabulary, spelling, punctuation, and paragraphing. The instruction is purely practical.

BOOKKEEPING

The course in bookkeeping and business practice is similar to that which can be obtained in progressive

commercial colleges. The inductive method of presentation prevails. Each transaction is presented to the student as much like the performance of actual business as possible. The student is taught self-reliance from the start. The course from the business standpoint is a comprehensive one; it will make not only bookkeepers, but well-informed business women, thoroughly conversant with all kinds of common commercial forms and blanks. The arrangement of the books and blanks is such that the subject can be taught with ease in schools of lower grades.

The Burroughs Adding Machine is a part of the equipment, and all students in bookkeeping are required to become familiar with its workings. The loose-leaf methods so universally recognized today form the basis of the course.

The higher work in bookkeeping represents the best practice of expert accountants of this country, and students are taught the uses of special books adapted to many important lines of commerce.

The expenses of the student taking the business courses for a term of thirty-five weeks are:

If boarding in the dormitory.....$195.00
If boarding in the city..... 65.00*

The above amount includes all college fees for lights, heat, books, etc.

---

* Can be reduced to $42.50 if the student passes satisfactory examinations on English.

EXTENSION DEPARTMENT

MARY M. PETTY, CHAIRMAN

This department has been organized for the purpose of serving the people of North Carolina who are unable to attend established educational institutions. It has assumed for its particular work the betterment of the home and school. The work is primarily educational, and it is to be borne in mind that the College has no desire or intention of establishing a mere entertainment bureau. In pursuance of its plan the Institution offers assistance in the following suggestive lines of work:

I. *To the Clubs:*

1. In the formation of club programs and in securing materials for the carrying out of these programs, both by the loan of books and by lectures on various subjects pertaining to the programs.

2. In the organization of clubs in the community, particularly among the women, for the study of Domestic Economy, including the house, food, clothing, sanitation for home and community.

3. Bulletins for distribution and loan.

4. A loan library of books on matters concerning food, sanitation, house furnishing, and decoration.

5. Lectures and Talks:

Bacteria in Health and Disease; Palatable Dishes at Moderate Cost; the Cheaper Cuts of Meats; Bread; Chemistry of Common Things; Food Adulteration; Literary lectures (Shakespeare, Wordsworth, Tennyson, Browning, Arnold, Kipling, Whittier, Lanier) under the auspices of the English Department; read-

ings from the best authors; helps in planning entertainments and plays.

II. *To the Schools:*

Improvement in Schoolhouses and Grounds; Choice of Pictures for the School Room; School Library; School Sanitation; Physical Exercises and Games; Illustrated Lectures; Economics; Co-operation for the Development of the School; North Carolina History.

III. *To the Home:*

The Home Service Department offers suggestions for:

1. Erection or remodeling of the home.
2. Criticism of proposed plans for the home.
3. Exterior and interior decoration of the home.
4. Lighting and heating appliances.
5. Sanitation or sewerage system for the home.

Consultation by correspondence in all matters included in the above is cordially invited. Address *Extension Department, State Normal College, Greensboro, N. C.*

COUNTY APPOINTMENTS

THE DORMITORIES

Under a regulation conforming to the Charter of the Institution, free tuition is offered to any young woman who will promise to teach for two years in the public or private schools of the State. The capacity of the dormitories is limited, however, and, in order that every county may have representation in the College, about two hundred places in the dormitories have been apportioned among the several counties of the State, in proportion to their white school population. Dormitory appointments are also given to those young women who prefer to pay tuition, the money thus derived being used to enlarge and better equip the dormitories and other departments of the College.

The dormitories have been fitted up by the State, and board is furnished at actual cost. If the amount collected from the students be more than sufficient to maintain this department, the balance will be refunded. The law does not permit any profit to be made on the boarding department.

The following indicates the number of free-tuition appointments to which each county is entitled:

3 Alamance	5 Buncombe	1 Chowan
2 Alexander	2 Burke	1 Clay
1 Alleghany	3 Cabarrus	3 Cleveland
2 Anson	2 Caldwell	2 Columbus
3 Ashe	1 Camden	2 Craven
2 Avery	1 Carteret	3 Cumberland
2 Beaufort	1 Caswell	1 Currituck
1 Bertie	3 Catawba	1 Dare
1 Bladen	2 Chatham	3 Davidson
1 Brunswick	2 Cherokee	2 Davie

2 Duplin	2 Lincoln	3 Robeson
3 Durham	2 Macon	3 Rockingham
2 Edgecombe	3 Madison	4 Rowan
4 Forsyth	1 Martin	3 Rutherford
2 Franklin	2 McDowell	2 Sampson
4 Gaston	4 Mecklenburg	1 Scotland
1 Gates	3 Mitchell	2 Stanly
1 Graham	2 Montgomery	2 Stokes
2 Granville	2 Moore	3 Surry
1 Greene	2 Nash	1 Swain
5 Guilford	2 New Hanover	1 Transylvania
2 Halifax	1 Northampton	1 Tyrrell
2 Harnett	1 Onslow	3 Union
2 Haywood	1 Orange	2 Vance
2 Henderson	1 Pamlico	4 Wake

3 Iredell	1 Person	3 Wayne
2 Jackson	2 Pitt	4 Wilkes
4 Johnston	1 Polk	2 Wilson
1 Jones	3 Randolph	2 Yadkin
2 Lee	1 Richmond	2 Yancey
2 Lenoir		

APPLICATIONS FOR COUNTY APPOINTMENTS

If the number of applicants from any county does not exceed the number to which it is entitled, appointments to places in the dormitories will be made without examination. If, however, it should be found necessary, a competitive examination, prepared by the Faculty, will be held at the county seat about August 1.

All applications for the county appointments should be in the hands of the President before July 15.

Students who receive appointments can hold them until they complete the course, provided their conduct and progress are satisfactory to the Faculty.

Any county appointments not applied for by August 1 will be given to the applicants from other counties, preference being given to the following classes:

1. Those who have spent a year or more at this College, and whose conduct and studious habits have commended them to the Faculty.

2. Graduates of other colleges for young women. This is done in order to prevent graduates from entering the competitive examinations against younger and less mature scholars in their own counties, and because these graduates can be prepared in a shorter time to begin teaching in the schools of the State.

3. The best material among new applicants.

EXPENSES FOR THE YEAR

REGULAR COURSE

By the Charter of the Institution, board must be furnished in its dormitories at actual cost. Since there is no possible profit in board, no risk of loss can be taken. It is, therefore, necessary that all bills be paid in advance. No exceptions can be made. The Board of Directors instructs that sight draft be made for all bills not paid when due.

Board in the dormitories	$104.00

November 15	10.00	
January 15	10.00	
March 15	10.00	
		$ 45.00

LABORATORY FEES

To defray in part the cost of materials actually consumed by the student in her laboratory work, the following annual fees, payable upon admission to the courses herein named, will be charged:

Biology, $1.00; Chemistry, $1.00; Domestic Art, $1.00; Domestic Science, $2.00; Manual Arts—Junior and Senior, $1.00 each; Physics, $2.00.

---

* New students, in addition to this amount, must deposit with the Treasurer $6.00 with which to purchase a gymnasium outfit.

OTHER NECESSARY EXPENSES

The only necessary additional expenses at the College will be $6.00 for gymnasium outfit, which amount must be deposited with the Bursar on entrance; Lecture and Recital fee of $2.00 (see page 115); the cost of medicine in case of illness, and, for graduates, a diploma fee of $5.00.

NON-RESIDENTS

No free tuition is given to a non-resident of the State, but a tuition charge of $65, instead of $45, is made.

SPECIAL BUSINESS COURSES

To any student not boarding in the dormitories, the charges for a special course in Stenography will be $22.50 for tuition, and the regular fees, $20.

MUSIC DEPARTMENT

The charges for the collegiate year in Applied Music are as follows:

Regular Students:

Two private lessons a week in Piano, Organ, Voice, or Violin	$40.00
For use of piano one practice period a day	5.00
For each additional daily practice period	4.00
Organ practice, one period daily	8.00
Each additional daily practice period	5.00

Special Students:

Students who register for some form of Applied Music only (Piano, Organ, Voice, Violin), pay $50.00. This is payable $30.00 on entrance; $20.00 at the beginning of the Spring term.

SUMMER SESSION

There will be no charge for tuition in any of the Summer Session courses. The charges for board, laundry, registration, medical attention, use of library and text-books, will be as follows:

For students who board and room in the College dormitories:

Eight weeks	$40.00
Six weeks	35.00
Two weeks	12.00

For students who do not board and room in the dormitories:

Eight weeks	$10.00
Six weeks	10.00
Two weeks (Registration Fee)	3.00

All Summer Session dues and fees are payable on entrance.

TEXT-BOOKS

The students are not required to bring any text-books. The College will, for the book fee, furnish the use of all ordinary text-books. But it might be helpful if students would bring a good English dictionary and other useful reference books in their possession. Latin, French, or German lexicons, when needed, must be purchased by the student.

In all business matters, the College prefers to deal directly with the students, rather than with their parents or guardians. This gives them business experience and makes them realize the cost of their training.

All students are supposed to matriculate for the full year, and must not expect any fees or dues remitted on account of their irregularities, or change in plans, except in case of serious illness, making it necessary for the resident physician to advise them to return home.

Let all checks and money orders be made payable to E. J. Forney, Treasurer.

FREE TUITION

The State Normal and Industrial College offers no scholarships. The only students who can have free tuition are those "who signify their intentions to teach upon such conditions as may be prescribed by the Board of Directors." Part of the dormitory space is reserved for tuition-paying students, and part for free tuition students. Each student applying for free tuition must sign the following

AGREEMENT

"I seek the opportunities of the State Normal and Industrial College because it is my desire and intention to make teaching my profession, and I agree, in consideration of free tuition granted me in said Institution, if I can secure employment and my health permits, to teach in the public or private schools of the State for at least two years after I leave the College. If within three years from the time I leave the College, I fail to teach as herein stated, from any fault of mine, which shall be decided by the Board of Directors or the Executive Committee, I agree to pay the College full tuition with interest for the time I attended. I furthermore agree that until this pledge shall have been fulfilled, I will report to the College, in May of each year after I leave it, the amount of teaching work I have done."

LOAN FUNDS AND FELLOWSHIPS

THE ALUMNAE LOAN AND SCHOLARSHIP FUND

For the purpose of establishing a few scholarships for post-graduate work, and for making loans to worthy students, chiefly in the higher classes, who could not return to the College without aid, the Alumnae Association has undertaken to raise a fund. This fund now amounts to about $15,000.

THE JARVIS BUXTON LOAN FUND

This fund, now amounting to $100, is established by Mrs. J. C. Buxton, of Winston, N. C., in memory

of her little son, who, notwithstanding the fact that he was an invalid all his life, had accumulated this amount of money before his death.

THE ADELAIDE WORTH DANIELS FUND

This fund, amounting to $100, has been established by Mr. and Mrs. Josephus Daniels in memory of their little daughter, and is to be used as a loan fund to worthy students.

THE LIDA CARR LOAN FUND

This fund was established by General and Mrs. Julian S. Carr.

THE McIVER LOAN FUND

As a memorial to the founder and first President of the College, the Alumnae Association is raising *The McIver Loan Fund.* The amount raised in each county will be credited to it, and used in aiding worthy students from that particular county. Contributions to this fund are now coming in. Seventy-five students have received loans from this fund during the last four years.

THE UNITED DAUGHTERS OF THE CONFEDERACY SCHOLARSHIP

The North Carolina Division of the United Daughters of the Confederacy offers two scholarships to descendants of Confederate veterans. These scholarships are worth about $125 each.

THE SARAH AND EVELYN BAILEY SCHOLARSHIP

Mr. and Mrs. T. B. Bailey, whose only children died while students at this College, have established a permanent scholarship to be known as *The Sarah and Evelyn Bailey Scholarship.*

ELIZABETH CROW MAHLER FUND

This fund, amounting to $100, represents a recent contribution to the loan funds of the College. The interest therefrom is to be used at the discretion of the President, in aiding worthy students.

OTHER LOAN FUNDS

CHARLES BROADWAY ROUSS, of New York, gave $100 to be used as a loan fund to the daughter of a Confederate soldier.

MR. AND MRS. V. EVERIT MACY, of New York, gave $1,000 to be used as a loan fund.

The late JUDGE JOHN GRAY BYNUM bequeathed to the College $1,000, known as the *Hennie Bynum Scholarship,* to be used as a loan fund for the aid of some young woman from Burke County.

MR. JOE ROSENTHAL gave $200 to be used in aiding needy students.

MR. CEASAR CONE gave $100 to the McIver Loan Fund.

GOVERNMENT

Those who board in the College are under the direct care of the President, the Lady Principal, and her assistants. The general policy in regard to government has been to trust the students and appeal to their honor and sense of propriety. It is but simple justice to say that they have responded to these appeals with a loyalty and faithfulness worthy of the highest praise. Vexatious and needless restrictions are dispensed with. In matters relating to order and deportment, the stu-

dents are, as nearly as practicable, a self-governing body. Subject to the approval of the College authorities, they adopt such regulations as concern the entire student-body. The powers thus committed to the students are vested chiefly in legislative and executive bodies of their own choosing. Difficult cases are referred to a Faculty Advisory Committee. This sense of responsibility is one of the educative forces of the College. Under certain conditions it might be found necessary to modify the methods of discipline, *but where many of the students are themselves teachers, where about one-third are defraying their own expenses, and where the average age is nearly twenty years,* the sober judgment of the students can generally be relied upon to produce a public sentiment that will result in right conduct and honest work.

Each student, when she registers, is required to sign the following contract:

CONTRACT

I do hereby contract with the State Normal and Industrial College that so long as I shall remain a student of the College, I will endeavor to comply cheerfully with all its regulations in all particulars, and I agree not to deface or injure, by writing or otherwise, any of its furniture, books, or other property. Moreover, if I should accidentally do damage to any property of the College, I hereby agree to report it promptly to the President, or, in case it should be dormitory property, I agree to report it to the lady in charge of the building where the damage is done, in order that it may be properly assessed, and that I may pay for the same.

Compliance with the foregoing contract requires promptness in attendance upon every meeting of students in chapel, dining-room, at recitations, or elsewhere, from the date of the opening of the College to the last exercise of the Commencement.

EXAMINATIONS AND REPORTS

Reports of the standing of all students in their studies are sent to parents or guardians twice a year. The reports are based upon the following system of marking:

Grade 1, 95-100 per cent.
Grade 2, 90-95 per cent.
Grade 3, 80-90 per cent.
Grade 4, 70-80 per cent.
Grade 5, 60-70 per cent.
Grade 6, below 60 per cent.

Students must attain a grade of 4 to pass in any study. Grade 5 indicates that the student is conditioned, but will be given another opportunity to remove the deficiency. Students receiving grade 6 in any study must take such study again.

GENERAL INFORMATION

AN EDUCATIONAL CENTER

The State Normal and Industrial College and its friends are to be congratulated upon its location.

GREENSBORO is one of the prosperous, growing cities of the country. Its healthfulness is well known, and its social and religious influences are the best. Its accessibility and the hospitality and progressive spirit of its people render it a favorite convention city of the State. A week seldom passes in which it has not as its guests some body of eminent men and women assembled in the interest of matters of public concern. Students in the College thus enjoy exceptional advantages for coming in contact with prominent State and national leaders, and in gaining an intelligent conception of the more important problems relating to the life and welfare of our people. The churches, the schools and colleges, the libraries, hospitals, and other agencies for civic and social betterment add immensely to the opportunities for liberal culture. The woman who spends a year or more in this environment gains a broader conception of life, and adds to her qualifications for usefulness. The city has long been an educational center. Its people, and the people of Guilford County, are liberal friends of public education, and have always been strong advocates of the education of women. The public schools of Greensboro are well equipped, and do efficient work, giving boys and girls

a thorough preparation for college. There are few towns or cities where the educational advantages are so excellent and may be had at such small cost.

There is another important reason why the College is fortunately located. To the entire people of the State, Greensboro is the most accessible of North Carolina towns. It is the geographical and railroad center of the State. The North Carolina Railroad, the Northwestern North Carolina Railroad, main line of the Southern Railway, and the Atlantic and Yadkin Railway, meet at Greensboro.

The schedule time to Greensboro from Raleigh, Fayetteville, Durham, Winston-Salem, Mount Airy, Statesville, Salisbury, and Charlotte, is from one to four hours.

One can leave Weldon, Goldsboro, Tarboro, Wilson, Maxton, Hamlet, Wilkesboro, Asheville, or Hot Springs in the morning and reach Greensboro by bedtime.

Students who leave Wilmington at 9.00 a. m., and those who take the early trains at Murphy, Morehead City, and the railroad stations in the most remote corners of the State, will meet in Greensboro in the afternoon or evening of the same day.

GROUNDS AND BUILDINGS

The College buildings, fifteen in number, are located on an eminence partly within and partly without the city limits. The grounds are both spacious and attractive. Ten acres, fronting on a paved and macadamized thoroughfare, are laid out and cared for in accordance with the plans of landscape gardeners. This constitutes the campus proper. Electric cars,

operated on a ten-minute schedule, and having three stopping points in front of the grounds, afford ready access to the railway station and to all points of interest in the city and its suburbs. A private avenue with macadam walks leads through the grounds to the several College buildings. A woodland park of twenty-five acres, covered with a natural forest growth of rare beauty, is the private property of the College. Several miles of walkways, a pavilion, and numerous rustic bridges add to the charm and comfort of this fresh air recreation ground. Ample space is allotted to tennis, basket-ball, and other forms of athletic sports.

The College buildings have been specially designed for their several purposes, and represent the best in material and equipment. They are properly lighted and ventilated, have adequate fire protection, are warmed by a central heating plant, supplied with sanitary drinking fountains, hot and cold water, local and long distance telephones, and gas and electric lights. The buildings include:

Administration Building—Offices of President, Deans, Secretary, Bursar, Registrar, Stenographer, Laboratories, Student Rest Rooms, Postoffice, and eighteen Lecture Rooms.

Library—Fireproof Book Room, Vault, Offices, Reading-Room, Reference and Study Rooms.

Students' Building—Manual Arts—six rooms; two Literary Society Halls, Young Women's Christian Association Hall and Reading-Room, College Auditorium, and fifteen Music Rooms.

Spencer Building—Main Dormitory, 492 feet long, facing east on College Avenue; North wing extension,

120 feet; South wing, facing on Walker Avenue, 240 feet. Kitchen, Cold Storage, and Central Dining-Hall with accommodations for 600. Total dormitory capacity of this building, including rooms for matron and assistants, 390.

Woman's Building—Dormitory, modern in all its equipment, and embodying the best features of buildings of its class. Dedicated by Act of the General Assembly of 1911 to the Women of the Confederacy. Accommodations for sixty students.

Kirkland Hall—New dormitory, accommodations for sixty students. Similar in all respects to the *Woman's Building.*

Guilford Hall—Dormitory, with accommodations for seventy students.

Curry Building—Teachers' Training School, Practice School Building, Offices, Assembly Hall, Play Room, and twelve Classrooms. Devoted exclusively to the work of the Normal Department.

McIver Memorial Building—Thirty-two Lecture Rooms, Laboratories and Offices, especially designed for the Science Departments.

Infirmary—New building, seventy-five bed capacity.. Modern in construction and arrangement. Thoroughly equipped. Laboratories, Operating and Consultation Rooms, Solaria, Outdoor Rooms, Physician's and Nurses' Rooms, Dining-Room and Kitchen.

Music Studio—Two-story brick cottage used by students of the Music Department.

Home-Training Cottage—Two-story frame cottage equipped to give students of Domestic Science practice

in housekeeping, in home-making, in purchasing provisions, planning, cooking, and serving meals, and in cleaning up and caring for the house.

Power House, Laundry, Central Heating Plant, Dairy, and Mechanic Shops.

President's Residence.

THE LIBRARY

ANNIE F. PETTY
MARY MULLEN
STUDENT ASSISTANTS

The library is one of the distinctly educative forces of the College. Those in whom its management is vested consider that it has a mission to perform other than that of a mere adjunct to departmental work. Efforts are made to render it a vital force in the life of each student. At the beginning of each fall term, all new students are required to attend a series of practical lectures given by the librarian on the use of the library. To be educated in the friendship of books—to derive that solace and inspiration and strength that come from restful, friendly communion with the world's choice spirits—is no insignificant part of woman's education. Denied this perennial source of wisdom, culture, and sympathy, a woman misses one of the most potent agencies in her own development, and an effective means of appeal to others.

Care has been taken to select such books as are most serviceable to students in their work in the various departments. Students have access, under necessary limitations, to the book-shelves. Facilities are offered for reading and study during library hours, and the librarian is present to give help in any line of

special study or reading. The library now contains more than ten thousand volumes, and valuable additions are annually being made by purchase and donations. Special effort is being made to secure any works on North Carolina History. Old volumes, magazines, pamphlets, newspapers—all materials relating to the history and literature of the State—will be acceptable.

The Reading-Room is supplied with the best current literature, including State and national papers, leading magazines, reviews, and educational journals.

SOCIAL LIFE

With regard to the social management of the dormitories, the authorities consider it essential that the young women have every privilege consistent with student life. Shopping, visiting, and receiving friends to a reasonable extent are not prohibited, *but no night may be spent out of the dormitories without a written request from parents or guardians, and even then permission will not be granted if, in the judgment of the authorities, it would be unwise to do so.*

Under proper conditions, visits from gentlemen will be allowed, when written requests for that privilege are made by parent or guardian addressed directly to the Lady Principal.

RELIGIOUS LIFE

Though unsectarian in its management, the College is distinctly Christian. Students are urged to attend the church of that denomination which it is their custom to attend when at home. The churches in Greensboro are Baptist, Catholic, Christian, Congregational, Episcopal, Friends, Lutheran, Methodist, Methodist Protestant, Moravian, Presbyterian, Primitive Baptist,

Reformed, and Jewish Synagog. The several pastors of the city churches are cordially invited to visit the Institution, in order that they may become personally acquainted with the students, and strengthen their religious life by helpful talks and conferences.

Prayers, with the reading of the Scriptures, and singing, are a part of each day's exercises. Attendance on this service is required.

Under the auspices of the Young Women's Christian Association, courses are offered in Mission and Bible Study. The Association also provides for daily religious services. A more extended account of the work of the Association will be found elsewhere.

GENERAL CULTURE

Students should breathe an atmosphere that will promote growth. The College, in addition to its regular work, seeks in various ways to promote the general culture of its students. Lectures are given from time to time by members of the faculty, and addresses made by prominent men and women, whose presence and whose messages are an inspiration to right thinking and right living.

LECTURE AND RECITAL COURSE

There will be given every year at the College a series of lectures by men of recognized standing in the literary and scientific world, and recitals by distinguished music artists. A fee of two dollars, collected at the time of registration, gives admission to the entire series of lectures.

SPIRIT OF DEMOCRACY

A large measure of the success which has attended the State Normal and Industrial College has been due to the representative character and spirit of the young women who have been its students. They have come from all of the one hundred counties of the State, and in their political and religious faith, their financial condition, and professional and social life, have been thoroughly representative of the people of North Carolina. Among them have been many graduates of leading female colleges, and more than a thousand who taught school before entering the Institution. In fact, the College has had every type of respectable woman in North Carolina, from the one who enjoyed all the advantages which money and social position confer, to the girl whose absence from her humble home meant increased toil and self-denial to every member of the family.

A large number of these young women remain in the College at their own expense, without help from parents, and a majority of them expect to become teachers. This has exerted a strong influence in favor of industry and the steady performance of duty. Moreover, the fact that the College has not depended upon the revenue derived from any class of its students has tended to aid in its discipline, and to imbue all the students with a spirit of democracy. The State is always the gainer when its teachers can be trained in an atmosphere of equality, which recognizes the worth of honest toil and faithful service, regardless of class distinctions. This coming together of all classes from all sections of the State fosters patriotism, self-reliance, and breadth of vision, gives the students a clear comprehension of the needs of their State, and

inspires them with a laudable ambition to be of some service. The spirit of the College is, therefore, worthy of the State of North Carolina. With a seriousness of purpose nowhere surpassed, and an earnest yet kindly striving for the higher standards of life and thought, here annually gather, on equal terms, more than six hundred North Carolina women. Here is no hatred of wealth, and no contempt for poverty, but courteous recognition of equal rights, with cheerful tribute paid to moral and intellectual worth.

SERVICE

Some indication of the serviceableness of the College is suggested by what has been said of the scope and character of its patronage. It has, since its establishment, been an open door of opportunity to the white women of North Carolina. Through it, the State has added to its resources over three thousand educated women, who have taught lessons of patriotism and right living to more than two hundred thousand North Carolina children. Two-thirds of all the students enrolled, and nine-tenths of all who graduate, become teachers in North Carolina. No large movement for the uplift of the State has failed to have support from its faculty and students, and today there is not a county in the State where representatives of the College are not to be found actively engaged in public service. There is no kind of educational institution requiring women teachers with ordinary professional training, where students of the State Normal and Industrial College have not been employed. Of course the greater number of teachers trained by the Institution have gone to the country public and private schools, but more than thirty per cent. of the

women teachers in the graded schools of the State are former students of the College, and its graduates have been employed in every orphanage, and in a large number of high schools, seminaries, and colleges.

EXTENSION WORK

In addition to its bulletin service, described elsewhere in this catalogue, and the correspondence courses of the commercial department, the College undertakes each year some form of work which is, in effect, the carrying of its resources to those beyond its walls. During the past session, a series of extension lectures have been delivered at representative points, chiefly under the auspices of the Federation of Women's Clubs of North Carolina.

An outline of the work of the Extension Department will be found on page 95.

HEALTH AND MEDICAL ATTENTION

The physical welfare of the students is made a prime object of attention. An experienced woman physician has charge of matters pertaining to health, and her lectures on sanitary science and personal hygiene form part of the required course of study. Trained nurses are also regularly employed. The physician and nurses may be consulted day or night. The cost of the medical consultation and attendance is included in the published expenses. In this way, medical advice is to be had at the least cost, and the danger obviated of any student's postponing for economical reasons the necessary consultation.

A regular outdoor walking period is observed, healthful open-air sports are encouraged, and, under

the direction of teachers of physical training, each student is required to take prescribed forms of physical exercise.

THE PREVENTION OF SICKNESS is the main object of physicians, nurses, and directors of Physical Culture. With the enlarged facilities afforded by the new infirmary, it is hoped to prevent cases of physical breakdown on the part of students, by transferring them, when necessary, to quiet rooms where they will be subject to individual dieting and special care.

IN THE BOARDING DEPARTMENT, the daily menus are made out and the dining-room supervised by a trained dietitian. A matron-in-charge is responsible for the purchase, storage, and proper preparation of food materials. The sewerage and water systems, the bath-rooms and lavatories, the heating and ventilating machinery, and the laundry are carefully inspected. All drinking water is thoroughly sterilized; care is exercised in regard to the milk and butter supply; proper ventilation of dormitory and recitation-rooms is insisted upon; and due precaution is taken to prevent the origin and spread of infectious diseases.

A committee appointed by the State Board of Health visits and inspects the Institution.

REPORT OF STATE BOARD OF HEALTH

North Carolina State Board of Health

BOARD OF DIRECTORS, STATE NORMAL AND INDUSTRIAL COLLEGE, GREENSBORO, N. C.

Gentlemen:—In accordance with Section 3, Chapter 62, Public Laws of 1911, I made an inspection of the State Normal and Industrial College. As in my

previous annual inspections, I found this Institution and all of its buildings, laboratories, rooms, etc., orderly and sanitary. For cleanliness and order, the Institution is a model.

Very respectfully yours

W. S. RANKIN, Secretary

SOME DISTINCTIVE FEATURES OF THE COLLEGE

The College has several features which are not common to all colleges for women. Among them may be mentioned:

1. The dormitories have been fitted up by the State, and board is furnished at actual cost.

2. Regular courses of study have been arranged with a special view to preparing young women to teach.

3. All candidates for the teaching profession must, during the Senior year, spend a part of each day in teaching, under the supervision and kindly criticism of heads of departments or supervising teachers in the Training School.

4. Departmental courses, designed especially for teachers, are offered in Freehand Drawing, Vocal and Instrumental Music, Domestic Science, Nature Study, Physics, Chemistry, School Gardening, and Manual Arts.

5. All students have an opportunity of taking courses in Manual Arts, Domestic Science, Home Decoration, Elementary Agriculture, Physical Training, and Household Biology.

6. A Summer Session, constituting one of the regular college terms, offers a variety of courses, many of which may be counted towards a degree. This places

the full resources of the Institution—faculty, buildings, libraries, and laboratories—at the service of those who may wish to devote part of their summer to college work.

7. Under no circumstances can any student receive free tuition without taking the pledge to teach for at least two years after leaving the College.

8. Nine-tenths of the young women who have received the College diploma have taught since their graduation.

ORGANIZATIONS

There are a number of organizations among the students, and it is a mistake from any standpoint for a young woman to come to the College and not belong to one or more of them. The expense connected with membership is not large, and the advantages are very great in many ways.

ADELPHIAN AND CORNELIAN SOCIETIES

These are two literary organizations of strength and usefulness, both to the College and to the individual members. They are managed by the students themselves, and members of the Faculty have no connection with them, except honorary membership. *After observing for several years the general progress of those students who are members of these Societies, and those who are not, the authorities of the College do not hesitate to say that it is a great mistake for a student not to become a member.* Besides the literary work, they give to students a training in self-control and in the power to influence others which the regular work of the College cannot give.

The Board of Directors prohibits any other secret organizations.

YOUNG WOMEN'S CHRISTIAN ASSOCIATION

OFFICERS

General Secretary.....Jane Taylor Miller, A. B., B. D.
President.....Mary Worth
Vice-President.....Mazie Kirkpatrick
Secretary.....Annie Scott
Treasurer.....Hallie Beavers

Among the most potent forces in any college community are those which the students themselves initiate, and it is significant that there is among students a movement, nation-wide, which unites their efforts in the name of Christianity. Among the women students it is known as the Young Women's Christian Association.

The aim of the Association in the State Normal College is to make a better Christian of every student who bears the name, to make the Christian life comprehensible and compellingly attractive to those students who have not yet found their way into it, and to make the community life of the College truly Christian.

In 1911, this Association became a part of the National Young Women's Christian Association, whose aim is: to unite in one body all like associations of the United States; to establish, develop, and unify such associations; to participate in the work of the World's Association; to advance the physical, social, intellectual, moral, and spiritual interests of young women.

The Christian leaders in the world are generally college men and women. The student association gives a certain preliminary training to those who are the

leaders in church or college work, in society, in philanthropy, and in association work itself.

The Devotional Committee plans for midweek services conducted by the students themselves, and Sunday evening vesper services led by resident pastors or members of the faculty.

Other committees arrange for courses in mission and Bible study. Any student or teacher in the College, or any woman connected wtih the College, may be elected an associate member of the Association. Any woman who is a member of an evangelical church is eligible to active membership. To fail to become an active or associate member of such an organization is, we feel sure, to make a mistake.

A copy of the *Students' Handbook,* a publication issued by the Association and containing much valuable information for every student of the College, is furnished upon request.

MUSICAL ORGANIZATIONS

Matter descriptive of the several musical organizations of the College will be found under the heading, Music Department.

STUDENT ORGANIZATION PAYDAYS

The several student organizations of the College have agreed upon a day to be set apart for the payment of all fees. For former students, the payday is September 28; for new students, November 16. The fees are:

Young Women's Christian Association	$1.00
Adelphian and Cornelian Literary Societies	2.50
Athletic Association	.25
Class Organizations (as agreed upon).	

COLLEGE PUBLICATIONS

BULLETINS

In an effort to extend its field of usefulness, the College issues quarterly a Bulletin for free distribution among the citizens of North Carolina. These bulletins represent the best thought of its faculty on subjects of vital interest to the home and school. Available numbers of former issues may be had upon application to the President.

ALUMNAE NEWS

The *Alumnae News,* published quarterly, is the official organ of the Alumnae Association of the State Normal and Industrial College. It is designed to serve as a bond of union and a medium of communication between the alumnae. Departments containing college notes, communications from graduates and former students, and news-matter of interest to all friends of the College are included in each issue.

THE STATE NORMAL MAGAZINE

The *State Normal Magazine* is published every month from October to June, by a Board of Editors elected from the Adelphian and Cornelian Literary Societies. The publication is under the general direction of an Advisory Editor chosen from the Faculty. The matter contained in it is not of purely local interest. Timely articles on current educational questions, with material relating to the past history of the State, form a considerable portion of its contents.

The subscription price is one dollar a year, payable in advance.

TEACHER'S REGISTRY

A registry of the names of students and graduates who desire to teach is kept at the College. The alumnae who are interested in it are requested to keep the authorities informed of changes in their address. The President will be pleased to correspond with any who desire teachers.

ALUMNAE ASSOCIATION

Annual meeting for the election of officers in the College auditorium during Commencement week.

The State Normal and Industrial College Alumnae Association was organized in 1893, and incorporated by Act of the General Assembly of North Carolina, March 8, 1909.

The objects of the Association, as set forth in Section 3 of the Act incorporating it, are:

To encourage, foster, and promote education in the State of North Carolina; to aid and assist the North Carolina State Normal and Industrial College, by donations or otherwise; and to aid and assist, by loans or donations, or both, worthy young women of the State to obtain an education at the said College; and for such purpose to receive, hold, invest, manage, and disburse any fund or funds which may come into its possession.

Membership in the Association is limited to present or former members of the Faculty, to former students, and students who are members of the graduating class at the time of the annual meeting. The Association's Loan Funds are described on pages 104 and 105 of this catalogue.

The *Alumnae News,* published quarterly, is the official organ of the Association.
